

Week Beginning 16th May 2022

This week in F1..

This week has been a fun week for all. On Monday, we baked some bread, just like in the story The Little Red Hen. We all helped with the kneading, which was really hard work for our hands, but we all did an amazing job. On Tuesday, we spoke about how the ingredients changed when they were combined and baked, the best part was eating our delicious breadcakes, we were very proud of our bread making skills.

On Tuesday we also visited The Purple Pig farm, this was such a fabulous visit, we helped the farmer care for the animals, which included feeding the lambs, piglets and calves, brushing the rabbit and gently holding a duckling.

On Wednesday, we really enjoyed 'junk modelling' our favourite animal from the farm. We joined together lots of materials and then mixed some paint to paint our finished model. Thank you to the parents for sending in some items to use for this.

In maths this week we have looked at the number 3. We have been using lots of different representations for the number 3 and looking at the matching quantities to the numerals 1, 2, 3. Thank you for those of you who sent in photos of the numbers 1 and 2 you spotted at home. Please upload any photos the children spot at home or in the outside environment of the number 3.

Next week is a very busy week in school. We are celebrating the Queens Jubilee. On Monday we have our Great British Bake off we would love to see any pictures of the children baking at home, if you find the time. Have a lovely weekend.
