

F2 Art Club

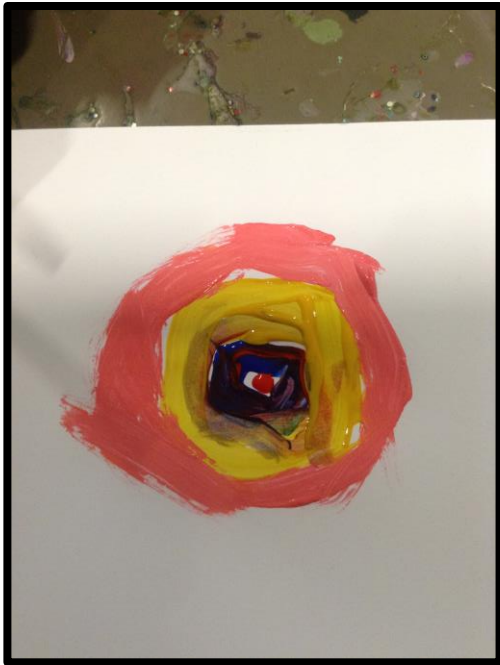

Our fabulous artists loved being inspired by Kandinsky today. Their creations have got off to a wonderful start.

Their colour mixing was great. There was also lots of chat about how they were making their colours too...

Layton asked Kieran, "How did you make that green?"
He replied, "A little bit of blue and a little bit of yellow."

Alice wanted to know, "How do you make light blue?"
Our resident artist, Kieran, told her, "White and blue."

The children worked so well on their creations, taking great care to create one circle after another. I'm sure the end results will look quite spectacular!

Well done everyone!
