

Week beginning 4th July 2021.

This week in FI...

This week in FI we have been learning all about America! On Monday we celebrated Independence day. We made American flags and went on a parade around the school. We also got to try some American foods including hot dogs and pretzels!

In our outside construction area some of the children have been building big statues just like the Statue of Liberty in America!

This week we have also been practising our scissor skills and trying hard to use the scissors to cut paper.

Next week we will be learning all about Australia. Please could you upload anything that your child may know about Australia onto Tapestry. We will be discussing this next week in our circle time.
