

Week beginning 19<sup>th</sup> September 2022.

## This week in FI...

This week in FI the children have been learning all about the story 'Once there were Giants'. The story is all about how people grow from being a baby. We talked about how we were all babies once and how we are getting older.

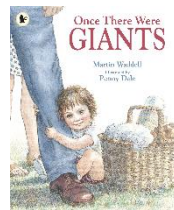

The children have enjoyed playing in the different areas in our setting. In the home corner this week the children have enjoyed looking after the babies. They have been bathing them, dressing them and feeding them and giving them lots of cuddles.

In the playdough area the children had lots of fun creating different faces using different objects to create some eyes, ears, nose and hair etc. On our funky fingers table the children used their fine motor skills to help thread the laces on the different sized shoes-we even had a GIANT shoe! In the creative area the children were making pictures of houses using lollipop sticks and drew a picture of who lives in their house.

In Maths this week the children were learning all about the song '5 little ducks'. We used our fingers to help us count and the children were able to act out the song during continuous provision on our maths table which had the 5 little ducks setting.

**\*Please could you upload a family photograph onto Tapestry so that we can print them out and put them in our photo album in our home corner as the children enjoy looking through it and talking all about their families\***

For home learning this week, please could you find some sticks/ twigs as next week we will be learning all about the story 'Owl Babies' and we will be making nests for the owls.

Have a lovely weekend,  
FI Staff.
