This Week in The HUB ...

We explored how reflections are formed in our Science lesson and played spy games with mirrors. We then followed a sequence of instructions to make our very own periscope which made our spying game so much more fun!

We visited the beautiful Pickering Road Community Orchard and what a great time we had. Rosie let us explore at first and we found the Bee hives, the woodland walk and the Viking labyrinth path. After trying some apples and deciding on our favourites, we used the map to go and pick a selection of apples for us to take home.

On Friday, we used our very best writing skills to compose a letter of thanks to Rosie and the Volunteers at the Orchard. We took pride in our work and presented it with care. The letters will be delivered to her next week. We then rolled up our sleeves for a food technology lesson. We were peeling, grating and chopping the cooking apples for our fruit crumble.

We continued to develop our musical skills as we learned more notes on the Glockenspiel and were able to accompany a simple song!

Our tweets will be posted using the hashtag #CPHUBI This will enable you to search for the twitter posts related to your child.
