

Week beginning 2nd January 2023.

This week in FI...

The children have had a lovely first week back at school. They have enjoyed telling us all about their holidays.

This week we have welcomed our new children who have started in our FI class. The children enjoyed playing in all of our different areas in the classroom and meeting new friends.

This week we have started reading the story 'The Gingerbread Man'. We have been retelling the story and talking about the different characters.

In Maths this week we have been talking about different colours and sorting objects into colours. We have also been making ABAB patterns using different objects around the classroom.

For this weeks home learning please could you upload a photograph onto Tapestry of someone special to your child, who they like to spend time with and why.

Please could we ask parents/carers to click on the 'like' button on Tapestry when we upload things such as the home school diary or observations.
