

Week commencing 20th March 2023

F2 Home School Diary

This week we have continued with our story 'Oliver's Vegetables'. We have enjoyed doing story maps and retelling the story with signifiers. We have made a list of things that Oliver likes to eat.

In Maths we have done the number 10, we have been counting sets of 10, finding 10 objects in the classroom and practising writing number 10.

We really enjoyed our walk to the orchard on Thursday, we saw lots of insects and flowers. On Thursday afternoon we had lots of fun planting some trees in the school grounds. We have been identifying human and physical features in our garden.

We are looking forward to you coming to watch our Easter Bonnet parade, please send your child to school dressed in Spring colours (yellow, green, pink etc).

This week's challenge - can you see the number 10 in your house or whilst you are out and about this weekend.
