

Week beginning 17<sup>th</sup> April 2023

# This week in F1...

We have had a lovely first week back. We have welcomed our new children this week and they have had a lovely time meeting the children and exploring our setting.

This week in F1 we have began learning our new topic all about farms. On Tuesday we started reading and singing the story 'Old Macdonald had a farm'. We have been talking all about the different farm animals in the story. Each day we have been learning about the individual animals.

On Wednesday and Thursday we were learning all about 'pigs'. We read the story 'The Three Little Pigs'. We talked about the different farm animals and where they live. The children also enjoyed painting pigs in the creative area.

On Friday we were learning all about 'Tractors'. We looked at how tractors have changed over the years. We looked for different shapes that we recognised on a tractor such as the circle wheels and the square window. In Maths the children have been recapping the shape names including 2D and 3D shapes. We talked about the characteristics of each shape such as how many corners and sides each shape has. We have also been counting to 5 using our counting finger and making different numbers with the correct amount of objects.
