

Look what we found in the special bag today!

At first Logan thought there might be a book in it but Eva realised it was a box of cereal.

Trixie said, "I like cornflakes."

Eva knew that we would eat them 'in the morning' but we looked and there was no bowl, spoon or milk!

When we found the pictures of the owls, Logan said, "We talked about owls!"

After Harriett telling us that we could melt the chocolate in the microwave, we said that we would make chocolate crispy bun nests for our owls to live in.

So we melted the chocolate in the microwave, like Harriett had told us to. It got hot and melted. Then we added the cornflakes.

Bobby said, "mix it". So we did!

Lots of children had a turn at helping make our mixture. It was great fun.

Then the children took turns at spooning the mixture into their bun cases.

Nests aren't built with cornflakes though, they are built with sticks and twigs so we used special biscuits that look like sticks to make our nests look real.

Bobby said that we should put the nests 'in fridge'. We know that the fridge is cold. It would make the chocolate go hard again instead of melted and runny.

Our crispy bun owl nests look fantastic! Everyone was keen to try them.

Trixie told us, "When you have made them, you can eat them." A brilliant sentence, well done!
