

# Farm Stay & Play

Our families came into school to join us in lots of farming activities and to see our visiting animals with the Purple Pig Co. It was a fantastic day...

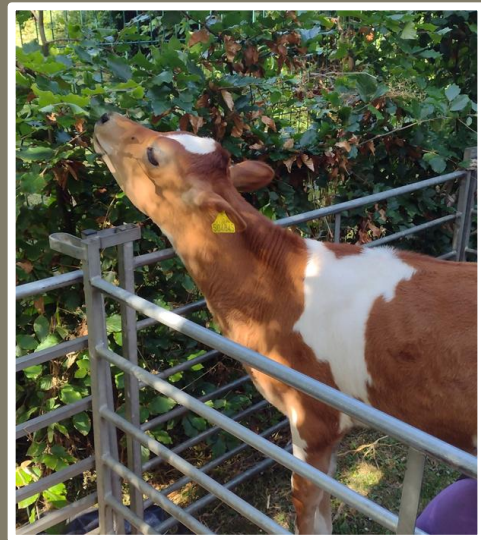

Our farmers also had farms to build, tractors to drive, pigs to look after, crops to cut and animals to clean. It was a very busy morning!

The ducks and hens needed help to sort out their eggs.

The real duckling was very cute and soft.

The cows needed milking, which was very popular. Woody almost managed to fill the full pail!

The calf liked the taste of our bushes at school and she liked the smell of Tilly too!

The bread & butter station was extremely popular. Some children also had a go at making our own butter. Musa was determined to keep shaking his pot!

The children loved being with the farm animals. The goats were very cheeky, the pigs were very sleepy and the chicks were extremely cute.

Everyone was given the chance to hold one of the chicks. We had to be very gentle as they were so small.
