

Valentines Day

FS2 had the most wonderful Valentine's Day celebration! The children arrived at school dressed in their perfect party attire- shimmering reds, pretty pinks, and all sorts of fabulous outfits that set the tone for a day full of love and fun. We began by talking about what Valentine's Day is and why people celebrate it. The children shared their lovely thoughts about kindness, friendship, and showing people we care.

Biscuit decorating

One of the highlights of the morning was making our very own Valentine's Day biscuits. The children carefully spread red and pink icing across their biscuits before adding sprinkles and a magical spray of edible glitter. Of course, the very best part was getting to enjoy their delicious creations after all that hard work!

We had lots of fun squelching paint between paper to create unique "Love Monsters," decorated with googly eyes and as many legs as the children wished!

At the water area, they created magical "love potions" by tipping, pouring, and mixing.

Our tuff trays were a big hit! The children explored jelly and rice, feeling the different textures squish and run through their fingers.

In the playdough area, they enjoyed pretending to make their own boxes of chocolates.

The children made beautiful cards for someone special at home.

In the afternoon, it was time to party! We headed to the disco where everyone danced to their favourite songs and showed off their best moves. After all that energy, we cooled down back in the classroom with a drink and enjoyed our exciting Valentine's raffle.
