

Farm Day in FL

Everything was set up and ready...

Everyone had great fun playing with our farming activities indoors.

The bread and butter station was very popular. We even made our own butter by shaking double cream until it split! It tasted delicious!

We possibly had even more fun outdoors! Milking cows, collecting eggs, washing animals. All of our 'farmers' were so busy!

Then it was time for our families to take turns at going to see the real farm animals. They loved it!

It was lovely being able to gently stroke the farm animals. Some of our children were so lucky, they were also allowed to help feed them special milk out of a bottle. How amazing! An absolutely fabulous day.
