

F2 Farm Day!

Today we had a wonderful farm-themed day inspired by *The Enormous Turnip*!

We harvested the crops on the tractor...

We looked after the animals on the farm...

We milked the cows...

Off course we had to try some fresh fruit and vegetables grown off a farm.

We dug up the mud...

The boys worked as a team to build their very own tractor. Evander said he was going to plant some seeds in soil from his tractor!

We sheered the sheep...

A highlight of the day was looking after two hens from Miss Pattersons farm! The children showed great care towards the hens, and we even saw a real awe and wonder moment when one of the hens laid an egg right in front of our eyes!! We had the chance to hold the precious egg and made sure not to drop it.

The children also loved setting the hens free in our classroom and observed how they peck and listened to the funny noises they make.
