

Careers Programme Overview

2020/21 Court Fields School

Vision Statement

Moving on to the world of further studies and work may feel a long way off for our students, but it will arrive far more quickly than they realise, so it is important that they have support in preparing for this.

College virtual tours and assemblies
Support in applying for post-16 progression routes
Preparation for interviews and personal statement writing
Post-16 Expo (done virtually)

For parents and influencers:

Throughout this journey information will be given to parents and other interested parties about local LMI, careers talks and inspirational broadcasts to give them the information they need to support the decisions that the young people will need to make. Futures evenings, curriculum evenings and parents evenings will offer the opportunity to talk to admissions staff at our partner post-16 providers.

Inspiring and preparing
young people for the world
of work.
