

Dear Parents/Carers

It has been an exciting month for our OPAL project. We have finally begun to set up our mud kitchen area, sand areas and free play tyres all resources with the kindly donated resources that were made last term. Every class now has access to their own welly rack so whatever the weather the children can have

fun playing and exploring outside. We are hugely grateful for all support as we could not do it without your kind generosity of equipment to supply our areas. If anyone still has any resources at home that they don't use, please feel free to send these in.

Thank You

OUR NEXT PROJECT

We are going to be focussing on creating a stage area and hopefully using some of the pallets to make cars to play on.

If you have any experience in creating these designs please get in touch.
