Which of these sectors do you think you would like to work in when you grow up and why?

I would work in the sports sector because I like to compete in fitness competitions.

Can you put these jobs in order to show which are paid (on average) the most and which are paid the least?

Most

Pilot

doctor

traindriver

paramedic

teacher

nurse

Least

I think the nurse should be paid more than a paramedic because nurses might have more responsibility.
