

Stanhope Primary School

Vision Statement

At Stanhope we promote **Seven Strengths** as the foundation of our school community:

- As a community we care for each other by showing **respect** valuing our differences, individuality and cultures.
- We treat everyone in our community the way we would expect to be treated, with **kindness**, helping others by modelling behaviours to instil this strength in our daily lives.
- Growth comes from overcoming difficulties. We provide opportunities and challenge for our children to help them have self-belief and have the **resilience** to overcome barriers.
- We encourage each other to demonstrate **perseverance** by staying positive and never giving up when faced with challenges, barriers and obstacles.
- Through perseverance and resilience children build a sense of **independence** and a 'can-do' attitude across all areas of life.
- We foster **enthusiasm** by celebrating our achievements, staying positive and believing everyone can succeed.
- Successes are accomplished through **teamwork**; as a school community we collaborate to make a difference.
