

RISK ASSESSMENT Coronavirus (Covid 19)

ACTIVITY: Coronavirus (COVID-19) Spread and Government Advice (REVISION 4) – 25/08/2020		DATE OF ASSESSMENT 16.12.2020
ESTABLISHMENT/SCHOOL Biddick Hall Junior School	SECTION/TEAM All	
WHO MIGHT BE HARMED? Employees, pupils, trainees, students and visitors		HOW MANY ARE AFFECTED? 200+
<p style="color: red;"> This document has been produced in conjunction with all Government guidance All risk has been assessed to minimise the spread of the virus as far as possible The risk assessment cannot guarantee safety of pupils and staff but if followed will mitigate risk as far as possible It is staff members' responsibility read and understand this document and implement the measures described </p> <p> Based on information 07/08/2020 https://www.gov.uk/government/publications/actions-for-schools-during-the-coronavirus-outbreak/guidance-for-full-opening-schools </p>		
<pre> graph LR A[Determine capacity of school building] --> B[Determine Staff available to work on-site] B --> C[Liaise with parents regarding intention to return pupils to school] C --> D[Undertake & review RAs & develop action plan] D --> E[Share re-opening plans with Governing Body and staff] E --> F[Make necessary adaptations to site] F --> G[Complete identified actions] G --> H[Inform parents of re-opening plans & expectations] </pre>		
<p> This Risk Assessment sets out the decisions taken and measures put in place to prepare for the phased re-opening of the school and ensure the school continues to operate in a safe way. Existing policies and guidance continue to apply alongside the actions within this document, including but not limited to: </p> <ul style="list-style-type: none"> • Health and Safety Policy • First Aid Policy • Child Protection Policy • CYP Response Plan • DFE Guidance relating to COVID19 • The Health and Safety at Work etc. Act 1974 • Management of Health and Safety at Work Regulations 1999 • Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) 2013 • First Aid Regulations 1981 • The Health Protection (Notification) Regulations 2010 • Public Health England (PHE) (2017) 'Health protection in schools and other childcare facilities' 		

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

ACTIVITY: Coronavirus (COVID-19) Spread and Government Advice (Page 2 of 39)				DATE OF ASSESSMENT
HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	<input type="checkbox"/> if in place <input type="checkbox"/> if not	IF 'X' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
Premises and equipment, water, etc. not maintained to statutory requirements:	<p>Premises and utilities have been health and safety checked and building is compliant</p> <ul style="list-style-type: none"> • Water treatments • Fire alarm testing • Repairs • PAT testing • Fridges and freezers • Boiler/ heating servicing • Internet services • Any other statutory inspections • Insurance covers reopening arrangements • Fire Risk Assessment and evacuation procedures reviewed and disseminated to all staff. <p>It is important that, prior to reopening for the autumn term, all the usual pre-term building checks are undertaken to make the school safe. If buildings have been closed or had reduced occupancy during the coronavirus (COVID-19) outbreak, water system stagnation can occur due to lack of use, increasing the risks of Legionnaires' disease. Advice on this can be found in the guidance on Legionella risks during the coronavirus outbreak.</p> <p>Additional advice on safely reoccupying buildings can be found in the Chartered Institute of Building Services Engineers' guidance on emerging from lockdown.</p> <p>Once the school is in operation, it is important to ensure good ventilation. Advice on this can be found in Health and Safety Executive guidance on air conditioning and ventilation during the coronavirus outbreak.</p> <p>In classrooms, it will be important that schools improve ventilation (for example, by opening windows).</p>	Yes	<p>Biddick Hall junior School Action:</p> <ul style="list-style-type: none"> • Site Supervisor (SS) has continued with daily and weekly checks around school in line with her job description. • All external inspections have taken place as arranged. • All repairs have been undertaken via STC Asset Management Dept. • All PAT Testing conducted 26.5.20 • Insurance arranged via STC. • Fridges and microwave ovens currently available to staff to be thoroughly cleaned after use. • Internet and computing facilities remain the responsibility of current provider - ICT in Schools. • All current school RA reviewed. • Covid 19 RA shared with staff. • It is the responsibility of all adults using this building to follow advice and guidance. • Use of staff room - only 4 people allowed in at a time. • Any areas used by adults within this building should be cleaned after use (with the exception of the toilet). • Ventilation improved with doors and windows being kept open. <p>Fire procedure:</p> <ul style="list-style-type: none"> ○ Fire wardens will be available. 	LOW

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	<input type="checkbox"/> if in place <input type="checkbox"/> if not	IF '☐' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
			<ul style="list-style-type: none"> ○ The teacher in the classroom bubbles will take charge of pupils and ensure everyone leaves the building. ○ All other staff to ensure they leave the building as soon as possible. ○ Reception staff to ensure a record of all staff on site is available. It is essential that all staff on site sign in verbally with reception staff/HT. ○ Teacher to inform reception staff of any missing people from their bubble. ○ No member of staff to enter building if a fire incident is in place unless they are trained as a fire warden. ○ Reception staff to telephone 999 emergency services as soon as possible. ○ Fire evacuation point to remain as school yard. 	
	<p>The 'BUILDING RA COVID' assessment has been revised and updated for the general running of the building.</p> <p>NB: TWFRS who has confirmed that wedging doors open is not best practice, however due to the COVID-19 crisis wedging classroom doors can be done, but cross corridor doors and doors leading on to a fire escape or stairway must remain in the closed position at all times</p> <p>Any door wedged open must have the wedge removed when the class is vacant even for the shortest period and the school must risk assess this.</p> <p>As for installing barriers in front of doors this is not acceptable under any circumstance, should an area need to be segregated then the use of signage and Fire Exit Door Security Seals should be used</p>	<p>This document will be used as our operational & building RA</p>	<p>Biddick Hall Junior School Action:</p> <ul style="list-style-type: none"> ● Staff entrance - reception ● Pupil entrance and exit – main gate and back gate open and manned for children to enter and leave at designated times. Children then enter school building through corridor entrances. ● Classroom and office doors to be kept open during use but left closed when vacated. ● Hall door to be wedged open when the reception area is staffed but closed when vacated. ● All fire escapes routes to be kept clear at all times, as per normal building practice. 	<p>LOW</p>

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

ACTIVITY: Coronavirus (COVID-19) Spread and Government Advice (Page 4 of 39)				DATE OF ASSESSMENT
HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	<input type="checkbox"/> if in place <input type="checkbox"/> if not	IF 'X' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
	which would snap if the door is forced open allowing anyone emergency egress if necessary.		<ul style="list-style-type: none"> Glass partition to remain closed between office and reception 	

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	<input type="checkbox"/> if in place <input type="checkbox"/> if not	IF '☐' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
Risk of coronavirus infection spreading to children and staff due to inadequate infection control procedure	<p>The school will ensure that pupils clean their hands regularly, including when they arrive at school, when they return from breaks, when they change rooms and before and after eating. Regular and thorough hand cleaning is going to be needed for the foreseeable future. Points to consider and implement:</p> <ul style="list-style-type: none"> has the school enough hand washing or hand sanitiser 'stations' available so that all pupils and staff can clean their hands regularly can the school ensure that there is enough supervision when using hand sanitiser to eliminate ingestion. Small children and pupils with complex needs should continue to be helped to clean their hands properly. Skin friendly skin cleaning wipes can be used as an alternative the school will build these routines into school culture, supported by behaviour expectations and helping ensure younger children and those with complex needs understand the need to follow them Soap and water is more effective than using sanitisers <p>The 'catch it, bin it, kill it' approach continues to be very important, so schools must ensure that they have enough tissues and bins available in the school to support pupils and staff to follow this routine. As with hand cleaning, schools must ensure younger children and those with complex needs are helped to get this right, and all pupils understand that this is now part of how school operates. Some pupils with complex needs will struggle to maintain as good respiratory hygiene as their peers, for example those who spit uncontrollably or use saliva as a sensory stimulant. This should be considered in risk assessments in order to support these pupils and the staff working with them, and is not a reason to deny these pupils face to face education.</p>	Yes <input checked="" type="checkbox"/>	<p>Biddick Hall Junior School Action:</p> <ul style="list-style-type: none"> All government guidelines have been taken into account when assessing the school for risk and for agreeing new building layout. Key hygiene information located around school. Prevent and symptoms information shared with pupils at the start of each day. Letter to parents - asking them to share good practice with pupils at home and to encourage the continuation of this behaviour at school. Letter lists these specific areas of advice. <p>Cleaning Information:</p> <ul style="list-style-type: none"> After each use of school equipment, staff members are expected to wipe the item clean (eg photocopier, keyboard, telephone, etc). Non classroom members of staff to wipe down their own work area, including chair, telephone, keyboard, at the end of each work shift. These areas will be cleaned by the cleaner but this is an additional cleaning measure. LA cleaners will still come in at the end of the day as usual. SS will ensure all cleaning in school will be at the highest level. All classroom bubbles will have a hand sanitiser station as well as a sink. 	LOW

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

ACTIVITY: Coronavirus (COVID-19) Spread and Government Advice (Page 6 of 39)	DATE OF ASSESSMENT
---	---------------------------

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	<input type="checkbox"/> if in place <input type="checkbox"/> if not	IF '☐' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
	<p>Public Health England does not (based on current evidence) recommend the use of face coverings in schools. This evidence will be kept under review. They are not required in schools as pupils and staff are mixing in consistent groups, and because misuse may inadvertently increase the risk of transmission. There may also be negative effects on communication and thus education. Face coverings are required at all times on public transport (for children over the age of 11) or when attending a hospital as a visitor or outpatient.</p> <p>Points to consider and implement:</p> <ul style="list-style-type: none"> • putting in place a cleaning schedule that ensures cleaning is generally enhanced and includes: <ul style="list-style-type: none"> ○ more frequent cleaning of rooms / shared areas that are used by different groups ○ frequently touched surfaces being cleaned more often than normal • clean surfaces that children and young people are touching, such as toys, books, desks, chairs, doors, sinks, toilets, light switches, bannisters, more regularly than normal • different groups don't need to be allocated their own toilet blocks but toilets will need to be cleaned regularly and pupils must be encouraged to clean their hands thoroughly after using the toilet. <p>See COVID-19: cleaning of non-healthcare settings guidance for cleaning information.</p>		<ul style="list-style-type: none"> • All pupils and staff members have access to soap and water - either in classroom bubble or in the toilet areas. • Cleaning equipment - stock take conducted on a daily basis to ensure good stocks of everything needed in school to ensure good hygiene measures. • All pupils issued with their own stationery bag. • All classes to be issued with box of PE/sporting equipment for outdoor use - items and box to be cleaned at the end of the day. • Teacher to reinforce cleaning and hygiene messages during the day. • Teachers to supervisor hand washing and hand sanitising. • Use of toilets - pupils will be supervised by classroom staff. Classroom staff to ensure no crowding of toilet areas. • All pupils to ensure they wear uniform each day cleaned in the normal way. • All rooms to ensure windows and doors are open regularly to allow fresh air to circulate. • Paper towels to be provided as an alternative to hand dryers in toilets. • Waste bins in each room and frequently emptied. • All waste removed at end of each day. • Where a known or suspected Covid 19 case has been reported, a full clean will be 	

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	<input type="checkbox"/> if in place <input type="checkbox"/> if not	IF '☐' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
<p>Child/Adult is unwell and it is believed that they have been exposed to COVID-19.</p>	<p>Ensure that pupils, staff and other adults do not come into the school if they have coronavirus (COVID-19) symptoms, or have tested positive in the last 10 days, and ensuring anyone developing those symptoms during the school day is sent home, are essential actions to reduce the risk in schools and further drive down transmission of coronavirus (COVID-19). All schools must follow this process and ensure all staff are aware of it.</p> <p>If anyone in the school becomes unwell with a new, continuous cough or a high temperature, or has a loss of, or change in, their normal sense of taste or smell (anosmia), they must be sent home and advised to follow 'stay at home: guidance for households with possible or confirmed coronavirus (COVID-19) infection', which sets out that they must self-isolate for at least 10 days and should arrange to have a test to see if they have coronavirus (COVID-19). Other members of their household (including any siblings) should self-isolate for 10 days from when the symptomatic person first had symptoms.</p> <p>If a child is awaiting collection, they should be moved, if possible, to a room where they can be isolated behind a closed door, depending on the age and needs of the child, with appropriate adult supervision if required. Ideally, a window should be opened for ventilation. If it is not possible to isolate them, move them to an area which is at least 2 metres away from other people.</p> <p>If they need to go to the bathroom while waiting to be collected, they should use a separate bathroom if possible. The bathroom must be cleaned and disinfected using standard cleaning products before being used by anyone else.</p> <p>PPE must be worn by staff caring for the child while they await collection if a distance of 2 metres cannot be maintained (such as for a very young child or a child with complex needs). More information on PPE use can be found in the safe working in education, childcare</p>	<input type="checkbox"/>	<p>Biddick Hall Junior School Action:</p> <ul style="list-style-type: none"> ● First aid /sick bay established in reception area - AR office. ● Named first aider on site at all times when pupils are present. Staff to inform SLT of any incidents. SLT is aware to call emergency services if required. No first aid to be administered unless this is by a trained first aider. ● PPE available for use by all staff if treating any child who shows symptoms of COVID 19 and can't keep 2m social distancing. ● PPE made available if requested by staff administering first aid ● Staff wearing face covering are advised to: <ul style="list-style-type: none"> ○ wash hands thoroughly with soap and water for 20 seconds or use hand sanitiser before putting face covering on and after removing it. ○ Avoid touching face or face covering as you could contaminate them with germs from hands. ○ Change face covering if it becomes damp or you have been touching it. ○ Continue to wash hands regularly. ○ Change face covering daily. 	<p>LOW</p>

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	<input type="checkbox"/> if in place <input type="checkbox"/> if not	IF '☐' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
	<p>and children's social care settings, including the use of personal protective equipment (PPE) guidance.</p> <p>As is usual practice, in an emergency, call 999 if someone is seriously ill or injured or their life is at risk. Anyone with coronavirus (COVID-19) symptoms should not visit the GP, pharmacy, urgent care centre or a hospital.</p> <p>Any members of staff who have helped someone with symptoms and any pupils who have been in close contact with them do not need to go home to self-isolate unless they develop symptoms themselves (in which case, they should arrange a test) or if the symptomatic person subsequently tests positive (see below) or they have been requested to do so by NHS Test and Trace.</p> <p>Everyone must wash their hands thoroughly for 20 seconds with soap and running water or use hand sanitiser after any contact with someone who is unwell. The area around the person with symptoms must be cleaned with normal household bleach after they have left to reduce the risk of passing the infection on to other people. See the COVID-19: cleaning of non-healthcare settings guidance.</p> <p>Public Health England is clear that routinely taking the temperature of pupils is not recommended as this is an unreliable method for identifying coronavirus (COVID-19).</p>		<ul style="list-style-type: none"> ○ If it is not washable - dispose of it carefully in the normal waste. ○ Practise SD whenever possible. ● Any child showing any symptoms will be taken to reception AR office to await their parent's collection and kept in isolation. <p>Procedure for pupils with symptoms</p> <ul style="list-style-type: none"> ● Classroom staff take child to first aid / sick area. Sit child near door and open. ● First aider puts on all necessary PPE equipment if they cannot keep 2m SD. ● First aider to stay with child until collected. ● Secretary, HT/DHT to call parents if any child shows any symptoms. ● Parents informed that they must be available to collect their child immediately if we call them with this information. If a parent is unable or unwilling to collect their child immediately, reception staff will inform member of SLT immediately and this will be dealt with as a safeguarding issue. ● Once area is clear after usual cleaning is carried out 	

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

			<ul style="list-style-type: none"> Gloves must be worn during this process and hands washed before and after process. All areas used during this process must be cleaned by staff member administering the medication. 	
Risk of coronavirus infection spreading to shielded and clinically vulnerable adults	<p>Where schools apply the full measures in the Government guidance and the Building and School RAs, the risks to all staff will be mitigated significantly, including those who are extremely clinically vulnerable and clinically vulnerable. We expect this will allow most staff to return to the workplace, although we advise those in the most at risk categories to take particular care while community transmission rates continue to fall.</p> <p>Advice for those who are clinically-vulnerable, including pregnant women, is available.</p> <p>Those individuals who are clinically extremely vulnerable are advised to work from home and not to go into work. Individuals in this group will have been identified through a letter from the NHS or from their GP, and may have been advised to shield in the past. Staff should talk to their employers about how they will be supported, including to work from home where possible, during the period of national restrictions.</p> <p>All other staff should continue to attend work, including those living in a household with someone who is clinically extremely vulnerable.</p>	<input type="checkbox"/>	<p>Biddick Hall Junior School Actions:</p> <ul style="list-style-type: none"> HT will follow all advice given by Government, LA and HR on who can return to work and who should remain at home. RA carried out on extremely vulnerable– MT has a shielding letter so will return now shielding has ceased from 1st September RA carried out on clinically vulnerable staff – advised to take extra care in observing SD including anyone who is pregnant. Where shielding is required, copy of government letter presented and are not expected to work in school building. Staff members to keep HT up to date with developments. RA to be shared with all school staff; asking all staff members to read the document and reply to say they have done so. Even if a staff member does not reply to say they have read the document, it will be assumed that they have done so and are willing to follow all guidelines outlined. It is felt that as part of the staff team of 	LOW

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	<input type="checkbox"/> if in place <input type="checkbox"/> if not	IF 'X' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
	<p>Individuals who were considered to be clinically extremely vulnerable and received a letter advising them to shield are now advised that they can return to work from 1 August as long as they maintain social distancing. Advice for those who are extremely clinically vulnerable can be found in the guidance on shielding and protecting people who are clinically extremely vulnerable from COVID-19.</p> <p>School leaders should be flexible in how those members of staff are deployed to enable them to work remotely where possible or in roles in school where it is possible to maintain social distancing. Further details will be sent to all schools and available on the Intranet.</p> <p>Staff and children who are clinically vulnerable or have underlying health conditions but are not clinically extremely vulnerable, may continue to attend school in line with current guidance.</p> <p>People who live with those who are clinically extremely vulnerable or clinically vulnerable can attend the workplace.</p>		<p>Biddick Hall Junior School, it is staff's professional responsibility to read this document.</p> <ul style="list-style-type: none"> • If a staff member does not agree with any part of the RA, they are to email the HT with their concerns. These will be discussed with other SLT and an answer given as soon as possible. • Staff have been and will continue to be given opportunity to raise any concerns they have around their safety via the HT. • All affected staff members have been kept up to date with developments and have spoken to HT. 	
Risk of coronavirus infection spreading to shielded and clinically vulnerable persons via pupil or staff attending school	<p>More evidence has emerged that shows there is a very low risk of children becoming very unwell from coronavirus (COVID-19), even for children with existing health conditions. Most children originally identified as clinically extremely vulnerable no longer need to follow original shielding advice. Parents should be advised to speak to their child's GP or specialist clinician if they have not already done so, to understand whether their child should still be classed as clinically extremely vulnerable.</p> <p>Those children whose doctors have confirmed they are still clinically extremely vulnerable are advised not to attend education whilst the national restrictions are in place. Schools will need to make</p>			LOW

	<p>appropriate arrangements to enable them to continue their education at home.</p> <p>Children who live with someone who is clinically extremely vulnerable, but who are not clinically extremely vulnerable themselves, should still attend education.</p> <p>Parents of clinically extremely vulnerable children will be receiving a letter shortly confirming this advice.</p> <p>Pupils who are shielding or self-isolating We now know much more about coronavirus (COVID-19) and so in future there will be far fewer children and young people advised to shield whenever community transmission rates are high. Therefore, the majority of pupils will be able to return to school. You should note however that:</p> <ul style="list-style-type: none"> • a small number of pupils will still be unable to attend in line with public health advice because they are self-isolating and have had symptoms or a positive test result themselves; or because they are a close contact of someone who has coronavirus (COVID-19) • shielding advice for all adults and children will pause on 1 August, subject to a continued decline in the rates of community transmission of coronavirus (COVID-19). This means that even the small number of pupils who will remain on the shielded patient list can also return to school, as can those who have family members who are shielding. Read the current advice on shielding • if rates of the disease rise in local areas, children (or family members) from that area, and that area only, will be advised to shield during the period where rates remain high and therefore they may be temporarily absent (see below). 			

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	<input type="checkbox"/> if in place <input type="checkbox"/> if not	IF 'X' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
	<ul style="list-style-type: none"> some pupils no longer required to shield but who generally remain under the care of a specialist health professional may need to discuss their care with their health professional before returning to school (usually at their next planned clinical appointment). You can find more advice from the Royal College of Paediatrics and Child Health at COVID-19 - 'shielding' guidance for children and young people. <p>Where a pupil is unable to attend school because they are complying with clinical and/or public health advice, we expect schools to be able to immediately offer them access to remote education. Schools should monitor engagement with this activity (as set out in the section below).</p> <p>Where children are not able to attend school as parents are following clinical and/or public health advice, absence will not be penalised.</p> <p>All other pupils must attend school. If parents of pupils with significant risk factors are concerned, we recommend schools discuss their concerns and provide reassurance of the measures they are putting in place to reduce the risk in school.</p>			

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	<input type="checkbox"/> if in place <input type="checkbox"/> if not	IF '☐' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
<p>Risk of coronavirus infection spreading due to large class sizes and reduced space</p>	<p>The school will minimise contacts and mixing between people while delivering a broad and balanced curriculum.</p> <p>The overarching principle to apply is reducing the number of contacts between children and staff. This can be achieved through keeping groups separate (in 'bubbles') and through maintaining distance between individuals. These are not alternative options and both measures will help, but the balance between them will change depending on:</p> <ul style="list-style-type: none"> • children's ability to distance • the lay out of the school • the feasibility of keeping distinct groups separate while offering a broad curriculum (especially at secondary) <p>It is likely that for younger children the emphasis will be on separating groups, and for older children it will be on distancing. For children old enough, they should also be supported to maintain distance and not touch staff where possible.</p> <p>Points to consider and implement:</p> <p>How to group children</p> <p>Consistent groups reduce the risk of transmission by limiting the number of pupils and staff in contact with each other to only those within the group. They have been used in schools in the summer term in recognition that children, and especially the youngest children, cannot socially distance from staff or from each other and this provides an additional protective measure. Maintaining distinct groups or 'bubbles' that do not mix makes it quicker and easier in the event of a positive case to identify those who may need to self-isolate, and keep that number as small as possible.</p>	<input type="checkbox"/>	<p>Biddick Hall Junior School Actions:</p> <ul style="list-style-type: none"> • All rooms in use will have posters and health information on display - specifically targeted at pupils. • Actions performed by school to ensure contact between people is kept to a minimum: <p>Detail:</p> <p>1. Reception area / sign in & out area</p> <ul style="list-style-type: none"> • Pens and other equipment must not be shared within reception areas - one member of staff AR/MC will sign in staff and visitors. • All staff must report to reception area on arrival and at the end of their shift to enable reception staff AR/MC to sign them in and out. • Essential visitors - reception staff to sign them in and out on paper record. • Visitors to school are discouraged but it is acknowledged that some visitors are necessary. Visitors are deemed to be any adult who is not on the school payroll (including Governors). • All staff to ensure if they are expecting a visitor - they must inform reception staff to add to the diary. Visitors will not be admitted into building unless they are in the diary. 	<p>LOW</p>

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	<input type="checkbox"/> if in place <input type="checkbox"/> if not	IF 'X' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
	<p>In this guidance for the autumn term, maintaining consistent groups remains important, but given the decrease in the prevalence of coronavirus (COVID-19) and the resumption of the full range of curriculum subjects, schools may need to change the emphasis on bubbles within their system of controls and increase the size of these groups.</p> <p>In secondary schools, and key stage 4 and key stage 5, the groups are likely to need to be the size of a year group to enable schools to deliver the full range of curriculum subjects and students to receive specialist teaching. If this can be achieved with small groups, they are recommended. At primary school, and in the younger years at secondary (key stage 3), schools may be able to implement smaller groups the size of a full class. If that can be achieved, it is recommended, as this will help to reduce the number of people who could be asked to isolate should someone in a group become ill with coronavirus (COVID-19).</p> <p>Schools should assess their circumstances and if class-sized groups are not compatible with offering a full range of subjects or managing the practical logistics within and around school, they can look to implement year group sized 'bubbles'. Whatever the size of the group, they should be kept apart from other groups where possible and older children should be encouraged to keep their distance within groups. Schools with the capability to do it should take steps to limit interaction, sharing of rooms and social spaces between groups as much as possible. When using larger groups the other measures from the system of controls become even more important, to minimise transmission risks and to minimise the numbers of pupils and staff who may need to self-isolate. We recognise that younger children will not be able to maintain social distancing, and it is acceptable for them not to distance within their group.</p>		<ul style="list-style-type: none"> All staff members and visitors to use hand sanitiser upon leaving the reception area. All visitors arriving in school must wear a face covering unless exempt from doing so. <p>2. Pupil Entrance</p> <ul style="list-style-type: none"> Guidelines state that we should be keeping people in bubbles. Identified classrooms will be class bubbles. Pupils will walk from the main pupil gate entrance and straight to their classroom bubble through corridor entrance. <p>3. Staff breaks</p> <ul style="list-style-type: none"> Not timetabled – staff can have comfort breaks as and when required Hot drinks can be taken to classrooms as long as have a lid on. <p>4. Lunch Procedure:</p> <ul style="list-style-type: none"> Lunch will be staggered and served in the dinner hall in year group or lower school/upper school bubbles. Children will only sit in their class bubble. 	

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

--	---------------------------

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	<input type="checkbox"/> if in place <input type="checkbox"/> if not	IF '☐' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
	<p>Both the approaches of separating groups and maintaining distance are not 'all-or-nothing' options, and will still bring benefits even if implemented partially. Some schools may keep children in their class groups for the majority of the classroom time, but also allow mixing into wider groups for specialist teaching, wraparound care and transport, or for boarding pupils in one group residentially and another during the school day. Siblings may also be in different groups. Endeavouring to keep these groups at least partially separate and minimising contacts between children will still offer public health benefits as it reduces the network of possible direct transmission. All teachers and other staff can operate across different classes and year groups in order to facilitate the delivery of the school timetable. This will be particularly important for secondary schools. Where staff need to move between classes and year groups, they should try and keep their distance from pupils and other staff as much as they can, ideally 2 metres from other adults. Again, we recognise this is not likely to be possible with younger children and teachers in primary schools can still work across groups if that is needed to enable a full educational offer.</p> <p>Measures within the classroom Maintaining a distance between people whilst inside and reducing the amount of time they are in face to face contact lowers the risk of transmission. It is strong public health advice that staff in secondary schools maintain distance from their pupils, staying at the front of the class, and away from their colleagues where possible. Ideally, adults should maintain 2 metre distance from each other, and from children. We know that this is not always possible, particularly when working with younger children, but if adults can do this when circumstances allow that will help. In particular, they should avoid close face to face contact and minimise time spent within 1 metre of anyone. Similarly, it will not be possible when working with many pupils who have complex</p>		<p>5. On arrival at school</p> <ul style="list-style-type: none"> Staggered times for lower and upper school bubbles Pupils will enter at pupil gate entrances and be directed to classroom bubble via pupil entrance. Staff will ensure pupils wash hands on entry to the building. On entry pupils MUST wash their hands. Pupils arriving late - will be taken to their class bubble by member of staff. <p>6. Recording of attendance:</p> <ul style="list-style-type: none"> Normal attendance procedures will resume. All pupils are expected to attend school. <p>7. End of day:</p> <ul style="list-style-type: none"> Pupils will be dismissed by their teacher in their bubbles at designated times. <p>8. Yard & outdoor space</p> <ul style="list-style-type: none"> Breaktimes and lunchtimes have been staggered into lower school and upper school bubbles. Children will stay in their class bubble to play. 	

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	<input type="checkbox"/> if in place <input type="checkbox"/> if not	IF '☐' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
	<p>needs or who need close contact care. These pupils' educational and care support should be provided as normal.</p> <p>For children old enough, they should also be supported to maintain distance and not touch staff and their peers where possible. This will not be possible for the youngest children and some children with complex needs and it is not feasible in some schools where space does not allow. Schools doing this where they can, and even doing this some of the time, will help.</p> <p>When staff or children cannot maintain distancing, particularly with younger children in primary schools, the risk can also be reduced by keeping pupils in the smaller, class-sized groups described above. Schools should make small adaptations to the classroom to support distancing where possible. That should include seating pupils side by side and facing forwards, rather than face to face or side on, and might include moving unnecessary furniture out of classrooms to make more space.</p> <p>Measures elsewhere Groups should be kept apart, meaning that schools should avoid large gatherings such as assemblies or collective worship with more than one group. When timetabling, groups should be kept apart and movement around the school site kept to a minimum. While passing briefly in the corridor or playground is low risk, schools should avoid creating busy corridors, entrances and exits. Schools should also consider staggered break times and lunch times (and time for cleaning surfaces in the dining hall between groups).</p> <p>Schools should also plan how shared staff spaces are set up and used to help staff to distance from each other. Use of staff rooms</p>		<p>9. Moving from yard to classroom bubble</p> <ul style="list-style-type: none"> ● Staff member will be with their bubble at all times. <p>10. Classroom bubbles</p> <ul style="list-style-type: none"> ● Children will be seated facing the front of the classroom in rows sitting side by side. ● Sanitiser station located at entry of each classroom - all pupils and staff must use this on their entry and exit to the classroom. ● All classrooms have a sink and soap and children will be required to wash their hands more frequently in accordance with hygiene procedure given to all staff. ● All rooms to be cleared of unnecessary equipment and desks in order to operate as a functioning classroom bubble which adheres H&S requirements. ● Pupils stay in same bubble with minimal contact between staff and peers. Children will be taught by their class teacher but will be taught by specialist for PPA cover. ● Year 6 will continue to set and children may move within year group bubble 	

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	<input type="checkbox"/> if in place <input type="checkbox"/> if not	IF '☐' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
--	---------------------------	---	---	---

	<p>should be minimised, although staff must still have a break of a reasonable length during the day.</p> <p>Measures for arriving at and leaving school Travel to school patterns differ greatly between schools. If those patterns allow, schools should consider staggered starts or adjusting start and finish times to keep groups apart as they arrive and leave school. Staggered start and finish times should not reduce the amount of overall teaching time. A staggered start may, for example, include condensing / staggering free periods or break time but retaining the same amount of teaching time, or keeping the length of the day the same but starting and finishing later to avoid rush hour. Schools should consider how to communicate this to parents and remind them about the process that has been agreed for drop off and collection, including that gathering at the school gates and otherwise coming onto the site without an appointment is not allowed. Schools should also have a process for removing face coverings when pupils and staff who use them arrive at school and communicate it clearly to them. Pupils must be instructed not to touch the front of their face covering during use or when removing them.</p> <p>They must wash their hands immediately on arrival (as is the case for all pupils), dispose of temporary face coverings in a covered bin or place reusable face coverings in a plastic bag they can take home with them, and then wash their hands again before heading to their classroom. Guidance on safe working in education, childcare and children’s social care provides more advice.</p> <p>Other considerations Some pupils with SEND (whether with education, health and care plans or on SEN support) will need specific help and preparation for the changes to routine that this will involve, so teachers and special</p>		<ul style="list-style-type: none"> ● Staggered break, lunch, arrival and departure times. ● Children will be in lower and upper school bubbles for break and lunch times but will play in class bubbles except for Year 6. ● Staff can move between bubbles to teach pupils if necessary. <p>11. Equipment</p> <ul style="list-style-type: none"> ● Pupils will be given a set of equipment in a pencil case to keep in their own tray. ● All classes will be given a box of outdoor and sporting equipment for their use. All equipment and box will be wiped at the end of each day. <p>12. Cleaning</p> <ul style="list-style-type: none"> ● Cleaners will work in school 3.30 – 6.00 around all areas of the school. <p>13. Non classroom staff locations</p> <ul style="list-style-type: none"> ● HT – her office ● DHT - her office/JO classroom bubble ● ICT Technician –only enters school if emergency otherwise work remotely ● Admin staff - to be located in reception area - behind glass screen.

--	---------------------------	---	---	---

	<p>communal areas where social distancing cannot easily be maintained.</p> <p>Where a child routinely attends more than one setting on a part time basis, for example because they are dual registered at a mainstream school and an alternative provision setting or special school, schools should work through the system of controls collaboratively, enabling them to address any risks identified and allowing them to jointly deliver a broad and balanced curriculum for the child.</p> <p>Equipment and resources are integral to education in schools. During the summer term, their use was minimised, many were moved out of classrooms, and there was significant extra cleaning. That position has now changed for the autumn term, because prevalence of coronavirus (COVID-19) has decreased and because they are so important for the delivery of education. For individual and very frequently used equipment, such as pencils and pens, it is recommended that staff and pupils have their own items that are not shared. Classroom based resources, such as books and games, can be used and shared within the bubble; these should be cleaned regularly, along with all frequently touched surfaces. Resources that are shared between classes or bubbles, such as sports, art and science equipment should be cleaned frequently and meticulously and always between bubbles, or rotated to allow them to be left unused and out of reach for a period of 48 hours (72 hours for plastics) between use by different bubbles.</p> <p>Outdoor playground equipment should be more frequently cleaned. Pupils must sanitise their hands before and after playing on outdoor equipment. To help mitigate the spread on wood play equipment pupils must sanitise their hands before and after playing on outdoor equipment.</p>

	<p>testing and tracing for coronavirus website, or ordered by telephone via NHS 119 for those without access to the internet. Essential workers, which includes anyone involved in education or childcare, have priority access to testing.</p> <p>The government will ensure that it is as easy as possible to get a test through a wide range of routes that are locally accessible, fast and convenient. We will release more details on new testing avenues as and when they become available and will work with schools so they understand what the quickest and easiest way is to get a test. By the autumn term, all schools will be provided with a small number of home testing kits that they can give directly to parents/carers collecting a child who has developed symptoms at school, or staff who have developed symptoms at school, where they think providing one will significantly increase the likelihood of them getting tested. Advice will be provided alongside these kits.</p> <p>Schools should ask parents and staff to inform them immediately of the results of a test:</p> <ul style="list-style-type: none"> • if someone tests negative, if they feel well and no longer have symptoms similar to coronavirus (COVID-19), they can stop self-isolating. They could still have another virus, such as a cold or flu – in which case it is still best to avoid contact with other people until they are better. Other members of their household can stop self-isolating. • if someone tests positive, they should follow the 'stay at home: guidance for households with possible or confirmed coronavirus (COVID-19) infection' and must continue to self-isolate for at least 10 days from the onset of their symptoms or when a test was taken and then return to school only if they do not have symptoms other than cough or loss of sense

	<p>The health protection team will carry out a rapid risk assessment to confirm who has been in close contact with the person during the period that they were infectious, and ensure they are asked to self-isolate.</p> <p>The health protection team will work with schools in this situation to guide them through the actions they need to take. Based on the advice from the health protection team, schools must send home those people who have been in close contact with the person who has tested positive, advising them to self-isolate for 10 days since they were last in close contact with that person when they were infectious. Close contact means:</p> <ul style="list-style-type: none"> • direct close contacts - face to face contact with an infected individual for any length of time, within 1 metre, including being coughed on, a face to face conversation, or unprotected physical contact (skin-to-skin) • been within one metre for one minute or longer without face-to-face contact • proximity contacts - been within 2 metres of someone for more than 15 minutes (either as a one-off contact, or added up together over one day) • travelling in a small vehicle, like a car, with an infected person <p>The health protection team will provide definitive advice on who must be sent home. To support them in doing so, we recommend schools keep a record of pupils and staff in each group, and any close contact that takes places between children and staff in different groups (see section 5 of system of control for more on grouping pupils). This should be a proportionate recording process. Schools do not need to ask pupils to record everyone they have spent time with each day or</p>
