Please note that *Governors* who are parents should not 'Champion' a year group that includes their own child in the interests of fairness.

'Champion' *Governors* will work alongside class teachers to act as a single link to the Governing Board for that year group.

The Head Teacher and Staff *Governor* should not link with a specific class unless they are teaching that class.

One Link governance and one class champion visit MUST be carried out and a report written each term.
