

RISK ASSESSMENT TEMPLATE - CAH (Revision: 2)

ACTIVITY: Coronavirus (COVID-19) Spread and Government Advice (REVISION 9) – 12/03/2021 (Page 1 of 44)		DATE OF ASSESSMENT 19/5/2020 4 th August 2020/updated 1 st September 2020 and 20 th November, 18 th December, January 6 th 2021, January 11 th 2021, March 5 TH 2021, March 12 th 2021
ESTABLISHMENT/SCHOOL Biddick Hall Infant and Nursery School	SECTION/TEAM ALL	
WHO MIGHT BE HARMED? Employees, pupils, and essential visitors		HOW MANY ARE AFFECTED? 200+

The current position is school has been open to those in identified groups with very low numbers in attendance between 2 and 5 pupils. This is slowly increasing and recently 8 have been in attendance including some children of staff members.
This document has been produced in conjunction with all Government guidance
All risk has been assessed to minimise risk as much as possible and make our school as infection free as it can be.
The risk assessment cannot guarantee safety of pupils and staff but if followed will mitigate risk as far as possible
It is staff members' responsibility read and understand this document and implement the measures described
It is staff member's responsibility to ensure that pupils adhere to all social distancing (SD) measures and procedures to protect themselves.

“This document has been produced in conjunction with Government, Public Health England and Department for Education guidance.
 All known hazards have been identified, the risks evaluated and control measures put in place to minimise the spread of the virus, as far as reasonably practicable.
 We cannot eliminate all risk, but if this risk assessment is followed it will mitigate risk as far as reasonably practicable.
 It is the staff's responsibility to read and understand this document and implement the control measures described to ensure, where reasonably practicable, that pupils adhere to all social distancing, infection control measures and follow school specific requirements.”

Steps of reopening

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES IN PLACE AT BIDDICK HALL INFANT AND NURSERY SCHOOL	✓ if in place ✗ if not	IF '✗' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
--	---	---------------------------	---	---

Assessment

This Risk Assessment sets out the decisions taken and measures put in place to prepare for the phased re-opening of the school and ensure the school continues to operate in a safe way. Existing policies and guidance continue to apply alongside the actions within this document, including but not limited to:

- Health and Safety Policy
- First Aid Policy
- Child Protection Policy
- CYP Response Plan
- DFE Guidance relating to COVID19
- The Health and Safety at Work etc. Act 1974
- Management of Health and Safety at Work Regulations 1999
- Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) 2013
- First Aid Regulations 1981
- The Health Protection (Notification) Regulations 2010
- Public Health England (PHE) (2017) 'Health protection in schools and other childcare facilities'

Premises and equipment, water, etc. not maintained to statutory requirements:

Premises and utilities have been health and safety checked and building is compliant

- Water treatments
Caretaker carries out weekly flushing and checking of water outlets. External company carries out fortnightly water checks. Completion logs checked weekly by a member of SLT

✓

- Fire alarm testing
- Fire evacuation procedures in the event that the childrens centre is closed and fire wardens have no access to the fire panel

✓

Action at Biddick Hall Infant and Nursery school:

The fire alarm takes place weekly by the caretaker of the children's Centre. Weekly checks logged in the fire safety file.

Caretaker carries out weekly padlock checks to ensure swift opening of locked gates to facilitate swift and safe exit from the building

Children's centre to give a set of keys to the school admin team in the event of a children's centre closure.

<p>Risk of coronavirus infection spreading due to use of transport</p>	<p>practice, however due to the COVID-19 crisis wedging classroom doors can be done, but cross corridor doors and doors leading on to a fire escape or stairway must remain in the closed position at all times</p> <p>Any door wedged open must have the wedge removed when the class is vacant even for the shortest period and the school must risk assess this.</p> <p>As for installing barriers in front of doors this is not acceptable under any circumstance.</p> <p>During national lockdown journeys should only be made for education or childcare, for work purposes, to exercise outdoors or visit an outdoor public place, for visiting venues that are open, for a medical reason, such as taking someone to hospital</p> <p>Educational Visits - "If you live in a Tier 4 area, you must not leave your home unless you have a reasonable excuse (for example, for work or education purposes). If you need to travel you should stay local – meaning avoiding travelling outside of your village, town or the part of a city where you live – and look to reduce the number of journeys you make overall." https://www.gov.uk/guidance/tier-4-stay-at-home#travel . There has been no specific guidance regarding Educational Visits, but interpreting the regulations and guidance it is evident that we can travel to education and should look to reduce the numbers of journeys we make. Therefore, from Monday 4th January 2021, I would advise that Educational Visits do not go ahead as these are not categorised as 'essential travel'.</p>		<p>Paper registers completed by office staff and the signing in book to be taken to assembly point by the administrative staff. Administration team call 999 emergency services.</p> <p>All staff must sign in and out of the building in order to be able to keep accurate records of who is on site.</p> <p>Fire evacuation practices to take place to ensure systems are effective. Fire logs completed.</p> <p>Ensure all staff are aware of new procedures around wedging open fire doors from TWFRS and adhere to this instruction at all times.</p>

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES IN PLACE AT BIDDICK HALL INFANT AND NURSERY SCHOOL	✓ if in place ✗ if not	IF '✗' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
	<p>Adjust transport arrangements where necessary including: <input type="checkbox"/> encourage parents and children and young people to walk or cycle to their education setting where possible <input type="checkbox"/> make sure schools, parents and young people follow the Coronavirus (COVID-19): safer travel guidance for passengers when planning their travel <input type="checkbox"/> ensure that transport arrangements cater for any changes to start and finish times <input type="checkbox"/> communicating revised travel plans clearly to contractors, local authorities and parents where appropriate (for instance, to agree pick-up and drop-off times) Social distancing has significantly reduced available transport capacity. This guidance sets out a new framework for supporting transport to and from schools from the autumn term. We are making a distinction between dedicated school transport and wider public transport: <input type="checkbox"/> by dedicated school transport, we mean services that are used only to carry pupils to school. This includes statutory home to school transport, but may also include some existing or new commercial travel routes, where they carry school pupils only <input type="checkbox"/> by public transport services, we mean routes which are also used by the general public Dedicated school transport, including statutory provision Pupils on dedicated school services do not mix with the general public on those journeys and tend to be consistent. This means that the advice for passengers on public transport to adopt a social distance of two metres from people outside their household or support bubble, or a 'one metre plus' approach where this is not possible, will not apply from the autumn term on dedicated transport. The approach to dedicated transport should align as far as possible with the principles underpinning the system of controls set out in this document and with the approach being adopted for your school. It is important to consider: <input type="checkbox"/> how pupils are grouped together on transport, where possible this should reflect the bubbles that are adopted within school <input type="checkbox"/> use of hand sanitiser upon boarding and/or disembarking <input type="checkbox"/> additional cleaning of vehicles <input type="checkbox"/> organised queuing and boarding where possible <input type="checkbox"/> distancing within vehicles wherever possible <input type="checkbox"/> the use of face coverings for children over the age of 11, where appropriate, for</p>

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES IN PLACE AT BIDDICK HALL INFANT AND NURSERY SCHOOL	✓ if in place ✗ if not	IF '✗' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
	<p>example, if they are likely to come into very close contact with people outside of their group or who they do not normally meet Dedicated school services can take different forms. Some journeys involve coaches regularly picking up the same pupils each day, others involve use of a minibus whilst other services are used by different pupils on different days, or by pupils with SEND. The precise approach taken will need to reflect the range of measures that are reasonable in the different circumstances. It will also require a partnership approach between local authorities, schools, trusts, dioceses and others. In particular, it is imperative that schools work closely with local authorities that have statutory responsibility for 'home to school transport' for many children, as well as a vital role in working with local transport providers to ensure sufficient bus service provision. Given the pressures on public transport services it may also be necessary to work with local authorities so that they can identify where it might be necessary to provide additional dedicated school transport services, including in places where these services do not currently operate. See DfE guidance Transport-to-school-and-otherplaces-of-education-autumn-term-2020 Wider public transport STC are currently working with transport providers and schools to plan safe, consistent transport for all staff and pupils. Families using public transport should refer to the safer travel guidance for passengers and Transport-to-school-and-other-placesof-education-autumn-term-2020 AWAITING LOCAL INFORMATION REGARDING TRANSPORT PLAN</p> <p>Families using public transport should refer to the safer travel guidance for passengers.</p>

<p>Risk of coronavirus infection spreading to children and staff due to inadequate infection control procedure</p> <p>Risk of</p>	<p>Head teacher/Assistant head teachers to regularly check the latest government advice for schools and to ensure the advice is shared and followed.</p> <p>Daily updates from DFE e mailed to HT. All members of SLT keep up to date with recent guidance and discuss at weekly SLT meetings. Actions agreed and disseminated as appropriate. All government guidelines have been taken into account when assessing the school for risk and for agreeing new classroom organisation.</p> <p>Teachers share key information about hygiene daily. Teachers to remind children at the start of the day. Resources are 'Catch it, Bin it, Kill it' poster and handwashing video and e-Bug resources to teach pupils about hygiene – information posters are displayed around the school and every classroom.</p> <p>The school will ensure that pupils clean their hands regularly, including when they arrive at school, when they return from breaks, when they change rooms and before and after eating. Regular and thorough hand cleaning is going to be needed for the foreseeable future. Points to consider and implement:</p> <p>Has the school enough hand washing or hand sanitiser 'stations' available so that all pupils and staff can clean their hands regularly? ensure that sufficient handwashing facilities are available. Where a sink is not nearby, provide hand sanitiser/mobile sink units in classrooms and other learning environments</p> <p>Can the school ensure that there is enough supervision when using hand sanitiser to eliminate ingestion. Small children and pupils with complex needs should continue to be helped to clean their hands properly. Skin friendly skin cleaning wipes can be used as an alternative</p> <p>The school will build these routines into school culture, supported by behaviour expectations and helping ensure younger children and those with complex needs understand the need to follow them</p>	<p>✓</p> <p>✓</p>	<p>Any visitors to in school is by prior agreement with the HT. The content of this risk assessment to be followed throughout the visit. Key hygiene information located around school. Age appropriate media, videos, posters, signage around school and in all bathroom areas to ensure pupils can follow the steps of good handwashing routines. Age appropriate daily information about respiratory hygiene and crook of arm and the appropriate use of tissues is shared at the beginning of each day</p> <p>Info shared on school website so all school population is aware of measures taken. Handwashing song on school website to ensure children follow the same routines at home and school.</p> <p>Revised home /school agreement to outline roles and responsibilities of all stakeholders during the pandemic including the importance of human disclosure should someone in the household be displaying symptoms.</p> <p>A letter sent out to parents outlining the measures we have taken to allow more pupils to attend school. This will also be used by parents to prepare pupils for the changes they will see when attending.</p> <p>A letter to parents - asking them to share good practice with pupils at home and to encourage the continuation of this behaviour at school.</p> <p>Cleaning Information:</p> <p>Additional cleaning of toilets and routinely touched surfaces by staff in bubbles as well as the cleaning team at identified timers of the</p>	<p>Reduced to low by purchase of signage and information posters.</p> <p>Reduced to low by the sourcing of additional cleaning hours</p>

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES IN PLACE AT BIDDICK HALL INFANT AND NURSERY SCHOOL	✓ if in place ✗ if not	IF '✗' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
<p>coronavirus infection spreading to children and staff due to inadequate infection control procedure</p> <p>Risk of coronavirus</p>	<ul style="list-style-type: none"> • Soap and water is more effective than using sanitisers <p>The 'catch it, bin it, kill it' approach continues to be very important, so schools must ensure that they have enough tissues and bins available in the school to support pupils and staff to follow this routine. As with hand cleaning, schools must ensure younger children and those with complex needs are helped to get this right, and all pupils understand that this is now part of how school operates. Some pupils with complex needs will struggle to maintain as good respiratory hygiene as their peers, for example those who spit uncontrollably or use saliva as a sensory stimulant. This should be considered in risk assessments in order to support these pupils and the staff working with them, and is not a reason to deny these pupils face to face education.</p> <ul style="list-style-type: none"> • In primary schools, we recommend that face coverings should be worn by staff and adult visitors in situations where social distancing between adults is not possible (for example, when moving around in corridors and communal areas). <p>Exemptions Some individuals are exempt from wearing face coverings. This applies to those who: cannot put on, wear or remove a face covering because of a physical impairment or disability, illness or mental health difficulties speak to or provide help to someone who relies on lip reading, clear sound or facial expression to communicate The same exemptions will apply in education and childcare settings and you should be sensitive to those needs, noting that some people are less able to wear face coverings and that the reasons for this may not be visible to others.</p> <p>Children in primary school do not need to wear a face covering. We are taking this additional precautionary measure for a limited time during this period of high coronavirus (COVID-19) prevalence in the community. These measures will be in place until Easter.</p> <p>Points to consider and implement:</p> <ul style="list-style-type: none"> • putting in place a cleaning schedule that ensures cleaning is generally enhanced and includes: 		<p>day. Staff risk assessed to return to work will not be on a rota to wipe over the bathroom areas This will involve cleaning all tables and chairs and paying close attention to regularly touched areas especially telephones, copier machines, door handles and doors and keyboards.</p> <p>After each use of school equipment, staff members are expected to wipe the item clean (e.g. photocopier, keyboard, telephone, etc.).</p> <p>Non classroom members of staff to wipe down their own work area, including chair, telephone, keyboard, at the end of each work shift. These areas will be cleaned by the cleaner but this is an additional cleaning measure.</p> <p>Cleaners to wear LA provided uniforms on site and may change into and out of uniforms in the workplace.</p> <p>Senior administrative officer will be supervising all cleaning in the school.</p> <p>Senior administrative officer and Caretaker will liaise with the LA cleaning supervisor to ensure that all cleaning in school will be at the highest level.</p> <p>All classroom bubbles will have a hand sanitiser station and access to a mobile sink which is thoroughly cleaned after use</p> <p>All pupils and staff members have access to soap and water - either in classroom bubble or in the toilet areas.</p>	<p>through the SLA</p>

<p>spreading to children and staff due to inadequate infection control procedure</p>			<p>Paediatric cardiac arrest is unlikely to be caused by a cardiac problem and is more likely to be a respiratory one, making ventilations crucial to the child's chances of survival. The most important thing is to act quickly to ensure the child gets the treatment they need in the critical situation.</p> <p>The importance of calling an ambulance and taking immediate action cannot be stressed highly enough. If a child is not breathing normally and no actions are taken, their heart will stop and full cardiac arrest will occur. Therefore, if there is any doubt about what to do, you need to follow the statement below: It is likely that the child/infant having a cardiac arrest will be known to you. We accept that doing rescue breaths will increase the risk of transmitting the COVID-19 virus, either to the rescuer or the child/infant. However, this risk is small compared to the risk of taking no action as this will result in certain cardiac arrest and the death of the child.</p> <p>First aider/cleaner to clean areas after administering first aid before returning to classroom bubble.</p> <p>Administration of medication: Administration of medication will be performed by any qualified first aider Policy Amendment May. Pupils with Asthma can return to school in line with DFE guidance Areas used or touched during first aid will be cleaned by first aider/cleaner before returning</p>

			<p>pupil to classroom. Gloves must be worn during this process and hands washed before and after process. All areas used during this process must be cleaned by staff member administering the medication. Named Paediatric first aider on site at all times when pupils are present. If the named first aider is off due to sickness, SLT will allocate staffing to cover this. To ensure that there will always be a first aider on site all staff will update first aid training online if it is due to expire. Staff to inform SLT of the incident of any major incident, SLT is aware to call emergency services if required. No first aid to be administered unless this is by a trained first aider. Amendment to first aid policy that any member of staff with a first aid certificate can administer medication.</p> <p>PPE available for use by all staff and pupils. Video shared to staff about how to use the equipment safely. Staff can wear face coverings if they feel this is necessary when administering first aid but is only compulsory for staff giving first aid for major incidents. Staff wearing face covering/shield are advised to: wash hands thoroughly with soap and water for 20 seconds or use hand sanitiser before putting face covering on and after removing it. Avoid touching face or face covering/shield as you could contaminate them with germs from hands. Continue to wash hands regularly.</p>

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES IN PLACE AT BIDDICK HALL INFANT AND NURSERY SCHOOL	✓ if in place ✗ if not	IF '✗' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
<p>Child/Adult is unwell and it is believed that they have been exposed to COVID-19.</p>	<p>Ensure that pupils, staff and other adults do not come into the school if they have coronavirus (COVID-19) symptoms, or have tested positive in the last 10 days, and ensuring anyone developing those symptoms during the school day is sent home, are essential actions to reduce the risk in schools and further drive down transmission of coronavirus (COVID-19). All schools must follow this process and ensure all staff are aware of it.</p> <p>If anyone in the school becomes unwell with a new, continuous cough or a high temperature, or has a loss of, or change in, their normal sense of taste or smell (anosmia), they must be sent home and advised to follow 'stay at home: guidance for households with possible or confirmed coronavirus (COVID-19) infection', which sets out that they must self-isolate for at least 10 days and should arrange to have a test to see if they have coronavirus (COVID-19). If they have tested positive whilst not experiencing symptoms but develop symptoms during the isolation period, they should restart the 10 day isolation period from the day they develop symptoms. Other members of their household (including any siblings) should self-isolate for 10 days from when the symptomatic person first had symptoms.</p> <p>If a child is awaiting collection, they should be moved, if possible, to a room where they can be isolated behind a closed door, depending on the age and needs of the child, with appropriate adult supervision if required. Ideally, a window should be opened for ventilation. If it is not possible to isolate them, move them to an area which is at least 2 metres away from other people.</p> <p>If they need to go to the bathroom while waiting to be collected, they should use a separate bathroom if possible. The bathroom must be cleaned and disinfected using standard cleaning products before being used by anyone else.</p>		<p>Ensure face shields are cleaned with anti-bacterial wipe/spray after each use. Practise SD whenever possible.</p> <p>It is essential that those who have been risk assessed for a return to work DO NOT support pupils or colleagues who display symptoms Symptom advice shared on website and MYSCHOOLAPP</p> <p>Sick bay established in the meeting room at the front of the building. The room is to be used for this purpose ONLY. Signage to inform staff of the necessary use of PPE when entering this room. Gents toilet in Admin corridor is the designated toilet for those with symptoms. This toilet is not to be used by any other members of staff.</p> <p>Any child showing any symptoms will be taken to the front office to await collection.</p> <p>Procedure for pupils with symptoms Classroom staff (not those clinically vulnerable who have been risk assessed) ensure they are wearing full PPE and take child to the sick bay room. Maintain stringent 2 metre distance and wear mask, shield and gloves to walk child to sick bay. Instruct child to go and sit on the plastic chair near the window (room is set up each morning to be ready in the event of symptomatic adult/child) child near window and open window.</p>

<p>Risk of coronavirus infection spreading due to large class sizes and reduced space</p>	<p>Early years and primary age children cannot be expected to remain 2 metres apart from each other and staff. Schools should therefore work through the hierarchy of measures:</p> <ul style="list-style-type: none"> • avoiding contact with anyone with symptoms • frequent hand cleaning and good respiratory hygiene practices • regular cleaning of settings • minimising contact and mixing • During tier 5 lockdown school is closed to all pupils except children of critical workers and those classed as vulnerable. Pupils are taught in class bubbles of smaller numbers to ensure pupils and staff can maintain at least a 1 metre distance from each other whenever possible. Nursery is fully open to all pupils. PHE is clear that if early years' settings, schools and colleges do this, and crucially if they are also applying regular hand cleaning, hygiene and cleaning measures and handling potential cases of the virus as per the advice, then the risk of transmission will be lowered. <p>Where settings can keep children and young people in those small groups ideally 2 metres away from each other, they should do so. While in general groups should be kept apart, brief, transitory contact, such as passing in a corridor, is low risk.</p> <p>The school will minimise contacts and mixing between people while delivering a broad and balanced curriculum.</p> <p>The overarching principle to apply is reducing the number of contacts between children and staff. This can be achieved through keeping groups separate (in 'bubbles') and through maintaining distance between individuals. These are not alternative options and both measures will help, but the balance between them will change depending on:</p> <ul style="list-style-type: none"> • children's ability to distance • the lay out of the school • the feasibility of keeping distinct groups separate while offering a broad curriculum (especially at secondary) <p>It is likely that for younger children the emphasis will be on separating groups, and for older children it will be on distancing. For children old enough, they should also be supported to maintain distance and not touch staff where possible.</p> <p>. Points to consider and implement: <i>In this guidance f the autumn term, maintaining consistent</i></p>	<p>✓</p>	<p>All classrooms will have handwashing posters on display to support daily teaching. Posters and health information and social distancing markers specifically targeted at pupils. Each day will start with teacher asking –about children's health. Children to be aware of symptoms in an age appropriate way.</p> <p>Procedures in school to ensure contact between people is kept to a minimum:</p> <p>Staff entrance –Main reception no more than half an hour before your bubble arrives. Staff leave as soon as their bubble leave.</p> <p>Pupil entrance and exit – main yard and reception class side gate.</p> <p>Detail: Reception area / sign in & out in Staff and Governors book. Admin staff will sign you in and out, please ensure you make very clear to them you have entered and left the building.</p> <p>Essential visitors - reception staff to sign them in and out in visitor's book</p> <p>Visitors to school are discouraged but it is acknowledged that some visitors are necessary. Visitors are deemed to be any adult who is not on the school payroll (including Governors). Visitors in schools should wear a face covering where social distancing between adults is not possible. Those who rely on visual signs for communication or communicate with or provide support to such individuals are exempt from the requirement to wear a face covering in school</p>

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES IN PLACE AT BIDDICK HALL INFANT AND NURSERY SCHOOL	✓ if in place ✗ if not	IF '✗' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
<p>Risk of coronavirus infection spreading due to large class sizes and reduced space</p>	<p><i>but given the decrease in the prevalence of coronavirus (COVID-19) and the resumption of the full range of curriculum subjects, schools may need to change the emphasis on bubbles within their system of controls and increase the size of these groups</i> <i>How to group children</i></p> <p>Consistent groups reduce the risk of transmission by limiting the number of pupils and staff in contact with each other to only those within the group. They have been used in schools in previous terms in recognition that children, and especially the youngest children, cannot socially distance from staff or each other and this provides an additional protective measure. Maintaining distinct groups or 'bubbles' that do not mix makes it quicker and easier in the event of a positive case to identify those who may need to self-isolate, and keep that number as small as possible.</p> <p>However, the use of small groups restricts the normal operation of schools and presents both educational and logistical challenges, including the cleaning and use of shared spaces, such as playgrounds, boarding houses, dining halls, and toilets, and the provision of specialist teaching. This is the case in both primary and secondary schools, but is particularly difficult in secondary schools. In this guidance for the autumn term, maintaining consistent groups remains important, but given the decrease in the prevalence of in this guidance for the autumn term, maintaining consistent groups remains important, but given the decrease in the prevalence of coronavirus (COVID-19) and the resumption of the full range of curriculum subjects, schools may need to change the emphasis on bubbles within their system of controls and increase the size of these groups. At primary school, and in the younger years at secondary (key stage 3), schools may be able to implement smaller groups the size of a full class. If that can be achieved, it is recommended, as this will help to reduce the number of people who could be asked to isolate should someone in a group become ill with coronavirus (COVID-19). Schools should assess their circumstances and if class-sized groups are not compatible with offering a full range of subjects or managing the practical logistics within and around school, they can look to implement year group sized 'bubbles'. Whatever the size of the group, they should be kept apart from other groups where possible and older children should be encouraged to keep their distance within groups.</p>	<p>✓</p>	<p>All staff members and visitors to use hand sanitiser upon entering and leaving the reception area.</p> <p>Identified classrooms will be class bubbles. 6x classrooms and 2x nursery area spaces.</p> <p>Each classroom bubble will have a consistent Teacher and 2x TA/HLTA delivering in class and remote learning. All nursery staff will work with pupils in each nursery bubble.</p> <p>Sanitiser station located at entry of each classroom - all pupils and staff must use this (with consent) on entry to classroom</p>

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES IN PLACE AT BIDDICK HALL INFANT AND NURSERY SCHOOL	✓ if in place ✗ if not	IF '✗' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
<p>Risk of coronavirus infection spreading due to large class sizes and reduced space</p>	<p>Schools with the capability to do it should take steps to limit interaction, sharing of rooms and social spaces between groups as much as possible. When using larger groups, the other measures from the system of controls become even more important, to minimise transmission risks and to minimise the numbers of pupils and staff who may need to self-isolate. We recognise that younger children will not be able to maintain social distancing, and it is acceptable for them not to distance within their group.</p> <p>Both the approaches of separating groups and maintaining distance are not 'all-or-nothing' options, and will still bring benefits even if implemented partially. Some schools may keep children in their class groups for the majority of the classroom time, but also allow mixing into wider groups for specialist teaching, wraparound care and transport, or for boarding pupils in one group residentially and another during the school day. Siblings may also be in different groups. Endeavouring to keep these groups at least partially separate and minimising contacts between children will still offer public health benefits as it reduces the network of possible direct transmission. All teachers and other staff can operate across different classes and year groups in order to facilitate the delivery of the school timetable. This will be particularly important for secondary schools. Where staff need to move between classes and year groups, they should try and keep their distance from pupils and other staff as much as they can, ideally 2 metres from other adults. Again, we recognise this is not likely to be possible with younger children and teachers in primary schools can still work across groups if that is needed to enable a full educational offer.</p> <p>Measures within the classroom</p> <p>Maintaining a distance between people whilst inside and reducing the amount of time they are in face to face to contact lowers the risk of transmission. Ideally, adults should maintain 2 metre distance from each other, and from children. We know that this is not always possible, particularly when working with younger children, but if adults can do this when circumstances allow that will help. In particular, they should avoid close face to face contact and minimise time spent within 1 metre of anyone. Similarly, it will not be possible when working with many pupils who have complex needs or who need close contact care.</p>	<p>✓</p>	<p>Those staff returning with a risk assessment as clinically vulnerable will always work with a colleague NOT in this identified category.</p> <p>Staff breaks</p> <p>Lunch breaks for staff are strictly timetabled with no more than 9 staff in the staff room at any one time. Seating arrangements ensure that those staff on a break are able to maintain social distancing. Staff are asked to ensure all crockery and utensils are tidied away and their dining space are wiped down after use.</p> <p>Lunch</p> <p>Pupils will be on a rota system to receive lunch. They will alternate weekly between a hot meal in the dining hall or a packed lunch in their class. There will be no more than 10 dining tables in the dinner hall at any one time. Nursery pupils will eat their lunch in smarties. Staff providing lunchtime supervision must ensure that table and chairs are thoroughly cleaned between sittings.</p>	

ACTIVITY: Coronavirus (COVID-19) Spread and Government Advice (Page 26 of 44)

DATE OF ASSESSMENT
4th August 2020 reviewed and updated 1st September 2020

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES IN PLACE AT BIDDICK HALL INFANT AND NURSERY SCHOOL	✓ if in place ✗ if not	IF '✗' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
<p>Risk of coronavirus infection spreading due to large class sizes and reduced space</p>	<p>These pupils' educational and care support should be provided as normal. For children old enough, they should also be supported to maintain distance and not touch staff and their peers where possible. This will not be possible for the youngest children and some children with complex needs and it is not feasible in some schools where space does not allow. Schools doing this where they can, and even doing this some of the time, will help.</p> <p>When staff or children cannot maintain distancing, particularly with younger children in primary schools, the risk can also be reduced by keeping pupils in the smaller, class-sized groups described above. Schools should make small adaptations to the classroom to support distancing where possible. That should include seating pupils side by side and facing forwards, rather than face to face or side on, and might include moving unnecessary furniture out of classrooms to make more space.</p> <p>Measures elsewhere Groups should be kept apart, meaning that schools should avoid large gatherings such as assemblies or collective worship with more than one group. When timetabling, groups should be kept apart and movement around the school site kept to a minimum. While passing briefly in the corridor or playground is low risk, schools should avoid creating busy corridors, entrances and exits. Schools should also consider staggered break times and lunch times (and time for cleaning surfaces in the dining hall between groups).</p> <p>Schools should also plan how shared staff spaces are set up and used to help staff to distance from each other. Use of staff rooms should be minimised to ideally only one staff member working in this space at a time. Staff must still have a break of a reasonable length during the day taking their lunch in their bubble when not on duty with the children.</p>	<p>✓</p>	<p>Recording of attendance: TA's to call Reception with numbers in attendance. Ensure the telephone is wiped after use.</p> <p>Yard & outdoor space There will be no cross over of resources to support outdoor play. Staff will be assigned specific resources to support outdoor play with their bubble class. There will be staggered times for outdoor play and designated spaces.</p> <p>YR outdoor space and under cover area used by separate bubble groups. Nursery outdoor space used by the bubbles working in the nursery environment on a rota basis.</p> <p>PE sessions to be carried out in class bubble groups for a 45-minute session. Strict cleaning of resources must take place after each class has completed their session.</p>

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES IN PLACE AT BIDDICK HALL INFANT AND NURSERY SCHOOL	✓ if in place ✗ if not	IF '✗' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
<p>Risk of coronavirus infection spreading due to large class sizes and reduced space</p>	<p>Measures for arriving at and leaving school Travel to school patterns differ greatly between schools. If those patterns allow, schools should consider staggered starts or adjusting start and finish times to keep groups apart as they arrive and leave school. Staggered start and finish times should not reduce the amount of overall teaching time. A staggered start may, for example, include condensing / staggering free periods or break time but retaining the same amount of teaching time, or keeping the length of the day the same but starting and finishing later to avoid rush hour. Schools should consider how to communicate this to parents and remind them about the process that has been agreed for drop off and collection, including that gathering at the school gates and otherwise coming onto the site without an appointment is not allowed. Schools should also have a process for removing face coverings when pupils and staff who use them arrive at school and communicate it clearly to them. Pupils must be instructed not to touch the front of their face covering during use or when removing them. Please ensure that you contact your Road Safety Advisor regarding any changes to start and finishing times to ensure that appropriate safety measures are updated, e.g. School Crossing Patrols, safer parking, etc.</p> <p>They must wash their hands immediately on arrival (as is the case for all pupils), staff must dispose of temporary face coverings in a covered bin or place reusable face coverings in a plastic bag they can take home with them, and then wash their hands again before heading to their classroom. Guidance on safe working in education, childcare and children's social care provides more advice.</p>		<p>Gate into main yard This is the pupil entrance and exit for those bubbles in our y1/y2 classes. Year 1 pupils will enter their classrooms via the classroom fire exit doors and y2 pupils will enter the classroom via the cloakroom. Entry will be staggered and markings on the yard and signage will support parents in maintaining a 2 metre distance on entry and exit. Parents will not cross the identified line and will drop children at the walking zone. Parents will exit via the side gate into the carpark. Staff will direct from a safe distance. Signage and support from staff will ensure parents are aware they are exiting via a functional carpark and to take extra care and follow the signage.</p> <p>Side Gate reception class Entry and exit will be on a one in one out basis with parents remaining beyond the perimeter fence until it is safe to enter with their child. They will be asked to leave their child at the end of the path, markings will indicate. Children will see their teacher and walk into the building</p>

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES IN PLACE AT BIDDICK HALL INFANT AND NURSERY SCHOOL	✓ if in place ✗ if not	IF '✗' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
<p>Risk of coronavirus infection spreading due to large class sizes and reduced space</p>	<p>Other considerations Some pupils with SEND (whether with education, health and care plans or on SEN support) will need specific help and preparation for the changes to routine that this will involve, so teachers and special educational needs coordinators should plan to meet these needs, for example using social stories.</p> <p>Supply teachers, peripatetic teachers and/or other temporary staff can move between schools. They should ensure they minimise contact and maintain as much distance as possible from other staff. Specialists, therapists, clinicians and other support staff for pupils with SEND should provide interventions as usual. Schools should consider how to manage other visitors to the site, such as contractors, and ensure site guidance on physical distancing and hygiene is explained to visitors on or before arrival. Where visits can happen outside of school hours, they should. A record should be kept of all visitors.</p> <p>. Visitors to the school should be restricted to only absolute necessary visits.</p> <p>In primary schools and education settings teaching year 6 and below, there is no change to the existing position.</p> <p>School requests parents to wear face covering when entering site during drop off and pick up times.</p> <p>Breakfast and after school provision for pupils on roll at our school is fully operational. As we are operating in bubble groups after school club as part of pupil's wider education are not yet operational.</p>		<p>All rooms to be cleared of unnecessary equipment and desks in order to operate as a functioning classroom bubble which adheres to SD and other H&S requirements.</p> <p>Equipment Pupils in YR and ks1 will be given their own smart sack containing all key resources. . All items to be cleaned at end of each day. All classes will be given a box of outdoor and sporting equipment for their use. All equipment and box will be cleaned at the end of each day. Each bubble will be given their own set of additional resources. Children will be directed to the resources which they can use and these resources need to be cleaned several times during the day. Pupils bring their filled water bottle from home and it remains on their desk.</p>

DATE OF ASSESSMENT
4th August 2020 reviewed and updated 1st September 2020

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES IN PLACE AT BIDDICK HALL INFANT AND NURSERY SCHOOL	✓ if in place ✗ if not	IF '✗' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
	<p>. This will require close cooperation between both schools and the other relevant employers. Schools should have discussions with key contractors about the school's control measures and ways of working as part of ongoing planning. Schools should ensure site guidance on physical distancing and hygiene is explained to visitors on or before arrival. Schools should consider how to manage other visitors to the site, such as contractors, and ensure that the risks associated with managing contractors, visitors, catering staff and deliveries, as well as cleaning staff on site who may be working throughout the school and across different groups, are addressed.</p> <p>Where visits can happen outside of school hours, they should. A record should be kept of all visitors. As normal, schools should engage with their local immunisation providers to provide immunisation programmes on site, ensuring these will be delivered in keeping with the school's control measures. These programmes are essential for children's health and wellbeing and can also provide benefits for staff.</p> <p>Equipment and resources are integral to education in schools. During the summer term, their use was minimised, many were moved out of classrooms, and there was significant extra cleaning. That position has now changed for the autumn term, because prevalence of coronavirus (COVID-19) has decreased and because they are so important for the delivery of education</p> <p>For individual and very frequently used equipment, such as pencils and pens, it is recommended that staff and pupils have their own items that are not shared.</p> <p>Where a child routinely attends more than one setting on a part time basis, for example because they are dual registered at a mainstream school and an alternative provision setting or special school, schools should work through the system of controls collaboratively, enabling them to address any risks identified and allowing them to jointly deliver a broad and balanced curriculum for the child.</p> <p>Classroom based resources, such as books and games, can be used and shared within the bubble; these should be cleaned regularly, along with all frequently touched surfaces. Resources that are shared between classes or bubbles, such as sports, art and science equipment should be cleaned frequently and meticulously and always between bubbles, or rotated to allow them to be left unused and out of reach for a period of 48 hours (72 hours for plastics) between use by different bubbles.</p>	✓

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES IN PLACE AT BIDDICK HALL INFANT AND NURSERY SCHOOL	✓ if in place ✗ if not	IF '✗' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
<p>Risk of coronavirus infection spreading to children and staff due to lack of PPE</p>	<p>Read the guidance on safe working in education, childcare and children's social care for more information about preventing and controlling infection, including when, how PPE should be used, what type of PPE to use, and how to source it.</p> <p>The majority of staff in education settings will not require PPE beyond what they would normally need for their work, even if they are not always able to maintain a distance of 2 metres from others. PPE is only needed in a very small number of cases including:</p> <ul style="list-style-type: none"> • children, young people and students whose care routinely already involves the use of PPE due to their intimate care needs should continue to receive their care in the same way • if a child, young person or other learner becomes unwell with symptoms of coronavirus while in their setting and needs direct personal care until they can return home. A fluid-resistant surgical face mask should be worn by the supervising adult if a distance of 2 metres cannot be maintained. If contact with the child or young person is necessary, then disposable gloves, a disposable apron and a fluid-resistant surgical face mask should be worn by the supervising adult. • If a risk assessment determines that there is a risk of splashing to the eyes, for example from coughing, spitting, or vomiting and staff cannot maintain a 2m distance and there is a risk of them being splashed with spit/saliva then there may be a case for PPE given we are now in sustained community transmission. A surgical mask should be worn and a risk assessment made over eye protection (it's possible that this would be needed if pupil spitting). If any direct contact/care provided, then disposable aprons and gloves should also be used... a face visor may be the better option. • Education, childcare and children's social care settings and providers should use their local supply chains to obtain PPE. Where this is not possible, and there is unmet urgent need for PPE in order to operate safely, they may approach their nearest local resilience forum or contact Philip Dixon PPE.Supplies@southtyneside.gov.uk for any PPE – explain your reasoning from your RA. 	<p>✓</p>	<p>Staff wear a face covering when moving around school in communal areas at times of high traffic.</p> <p>Prior to September reopening all staff have read the guidance safe working in education, childcare and children's social care</p> <p>All staff aware of RA and its content.</p> <p>All staff to follow all advice within this document - control measures & actions.</p>
