

### **Reach More Parents – Weduc**

Following recent feedback from parents and carers our new app Reach More Parents will replace myschoolapp after February half term.

Feedback has shown that an online system which will allow us to communicate key information including letters and important dates is preferred over paper copies.

Reach More Parents will be our main communication tool to keep parents and carers informed and up to date. It gives access to key dates along with allowing parents and carers to give online consent for any upcoming trips or activities.

Notifications will appear as a newsfeed along with a message function which will allow you to receive letters and information.

All families will receive an enrolment email or SMS in the coming days containing details of how to register and access the reach more parents app. A unique and secure login for your account will also be supplied.

Please follow the instructions in the email/SMS to activate your account. Reach More Parents have a dedicated support line for any queries or issues you may come across (**01509 221349**).

If you have any queries regarding this or would like any further information, please contact the school office.

Thank you
