

South Tyneside Council

Dear Parents and Carers,

As the weather gets warmer and the summer holidays begin, we want everyone to enjoy South Tyneside's beaches, parks and public spaces safely.

Recently, there has been an increase in incidents involving young people taking risks, such as drinking alcohol, using drugs and behaving in ways that may be unsafe or against the law, which could lead to arrest. We know that most young people are respectful and make good choices, but we want families to be aware of the risks.

Some young people have become vulnerable because of intoxication, which can put them at risk of harm or exploitation. We ask parents and carers to talk to their children about staying safe, making good decisions and looking after themselves and their friends.

Water Safety

If your child is visiting the beach, river or any open water this summer, please advise:

- Always stay together and look out for each other.
- Never swim alone
- Only swim where it is safe to do so.
- Do not go into the water after drinking alcohol or taking drugs.
- If someone is in trouble in the water, call 999 and ask for the Coastguard.
- In an emergency at the beach, look for the nearest lifeguard.

Talking to your child about water safety could help save a life.

Where to Get Help and Support
