Northumberland student Health and Wellbeing Survey 2017

The Northumberland Church of England Academy has agreed to participate in a very important Health and Wellbeing Survey which will support the work of Public Health and Children's Services within the Local Authority. We stand to benefit substantially through our participation in the survey.

The survey data in schools may prompt review of the curriculum including:

- as a starting point for a discussion in classroom activities
- as a guide in the choice of resources
- as a prompt for appropriate timing of courses
- as a beginning for further enquiry to strengthen existing programmes e.g. in PE
- as a starting point for discussions between parents and schools

Participating and using the results will help us ensure we continue to provide a health promoting environment for all young people. The survey, which will be carried out in the next few weeks, will include questions covering a range of health behaviours, for example, emotional health and wellbeing, healthy eating and exercise, relationships and social media. Both the Local Authority and the Academy find the content of the survey acceptable. Each survey is anonymous and confidential and no student will be identified when the data is returned to our school.

As part of the survey it would be helpful if your son/daughter knows the first part of their postcode i.e. NE63, (this will only be used for drawing maps of results in the area. Your house will not be identified).

Yours sincerely

Sandra Brown
Director of Learner Welfare
