Year 4 Curriculum
2021-2022

Curriculum Information

The table below outlines what is covered each half term in each subject.

In addition to this, the last week of each half term (excluding Autumn 2) is designated as 'Welly Week'. During this time, our children investigate and explore one part of the local area, revisiting it at different time of the year to observe the seasonal changes and carry out scientific enquiries. These experiences and the data captured during this time is then linked to the work that is produced across that week in a variety of subjects. Further details of the Welly Week Curriculum can be found in the Welly Week Long Term Plan.

We assess children's attainment in all of the above subjects on a half termly basis against age-related criteria. The more detailed, medium term plans contain these criteria.
