

**Year 4 home learning 21.11.14**  
**Due Wednesday 26th November**

### **Literacy**

Wow! The year 4 children are creating some amazing pieces of homework that are really helping them in their projects. This week, your challenge is to research how global warming works and how it is affecting your chosen extreme environment. You can present this as a poster, an essay or even an information leaflet.

#### **SC:**

*I have included pictures*

*I have included a question of my own*

*I have written my research into paragraphs of my own words.*

*I have included connectives and adverbial phrases/openers.*

### **Spellings**

Please practise the following spellings and put them into a sentence. Remember - look, cover, write, check! You will notice that these are homophones. Can you work out what a homograph is?

- Witch
- Which
- There
- Their
- They're
- Grown
- Groan
- Accept
- Except
- Whether
- Weather

### **Reading**

Please make sure you read to an adult at least 3 times a week so that they can question you about what you have read.

### **Maths**

Please practise multiplication and division on the sheet provided. You have a challenge this week using your times tables. To see how quick you can become with your times tables, ask somebody to time you saying them at the beginning of the week and then 3 more times. Using this, you can see how much you have grown. Aim to use your 4, 6, 8 and 9 times tables.

Have a lovely weekend!

Mr Mortimer and Miss Roberts
