

**Year 4 home learning 13.2.2015**

**Due Wednesday 25th February**

**Our next topic is The Romans! Over the holidays think about what you would like to learn about the Romans - can you think of 5 interesting questions we could include in our project?**

**Spellings**

Please practise the following spellings. How many interesting sentences can you make? Can you write a sentence that includes more than one of them?

- caught
- quarter
- though
- admiration
- vibration
- separate
- admission
- invasion
- guard
- gently

**Reading**

Please continue to read to an adult - you have been given a set of questions which will help you with your reading comprehension. Try to answer some of these questions each time you read, just like in our reading conferences.

**Maths**

Continue to practise estimating and converting measures by using the SumDog activities or by looking at objects at home. Can you estimate the length or the weight of the object? Check it by measuring or weighing it. For an extra challenge you might want to practise converting the weight or length from cm - m or g - kg.

Have a lovely weekend!

Miss Roberts
