

## Year 3 Home Learning

Thank you all for the great effort you put into your half term home learning!  
Please could you complete this homework and return it by Wednesday 4<sup>th</sup> March.

First, we would like you to research different superheroes and their superpowers. Then, using your knowledge, could you create a superhero using all these ideas.

- **Draw the new superhero**
- **Give them a name**
- **Label the superhero with all their special powers and write why you have chosen them.**

Here's an example

Ultra-man's cape is made from the same material as Batman's, which gives him the ability to glide.

Interestingly, he has a helmet like Magneto, which means he is protected from psychic attack.

**Challenge: can you use because to start your sentence?**

Because he wears dark blue, he is slightly camouflaged at night.

Fascinatingly, Ultra-man has the immense strength of Superman.

**Ultra-man**

### Maths

Continue to practise on Sumdog. This week we are continuing with multiplication and division.

### Spellings

Spelling rule: Remember, if a word ends in **y** and has a consonant before it (story), you **drop the y and add -ies** to make it plural (stories).

**story, stories, penny, pennies, library, libraries, factory, factories**
