

Year 4 home learning 22.5.2015

Due Monday 1st June

Project

After half term we will begin a new project about building the community between the two school sites.

We are going to spend the first 2 weeks thinking about 'belonging'. Over half term, consider the following questions and create a mind map or a poster to explain what they mean to you.

- What does belonging mean?
- What is a community?
- How can we show that we belong to a community?

Try and find an object that represents 'belonging' to you. We would like you to bring in the object or a picture of it to share with the class on the first day back.

Spellings

1. connection
2. circuit
3. automatic
4. analyse
5. limitation
6. superficial
7. anxious
8. generous
9. opportunity
10. elusive

Reading

Please continue to read to an adult at least three times a week and use the reading comprehension question to test your understanding.

Maths

Use some of the games we played during Brain Week to test your knowledge. Make sure you have memorised your times tables and equivalent fractions, including decimals.

For example, $\frac{1}{2}$ is the same as 0.5 and $\frac{1}{10}$ is the same as 0.10.

Maybe you could teach your family or create a game to play with them.

Have a lovely half term!

Miss Roberts
