

**Event Cycling presents:
'The Willen Wobble'
Sunday 13th September 2015
10 am start.**

A lovely ride in aid of the British Heart Foundation, around a spacious lake and park for aged 11 and under. (The distance around the lake is 3km but a shortened course will be available for younger children). The ride will take place at Willen Lake in Milton Keynes.

As well as normal bikes children can take part on scooters, bikes with stabilisers or balance bikes. Young children can participate with their parents but older ones may prefer to wobble along and meet their parents at the finish.

A great ride to bring the family to and make a day of it. This is designed to raise sponsorship and awareness of the BHF. A BBQ, Bouncy Castles and plenty of fun will be available.

Children under 11 are allowed to participate; older children or parents can accompany their brothers or sisters.
