Part A: Pupil premium strategy plan

Statement of intent

Shipston High School is committed to ensuring that all of our students achieve their potential, develop fully, both academically and socially, and are ready to positively contribute to society. The pandemic, and the subsequent disruption to all students learning, disproportionately affected our disadvantaged and vulnerable students. Up to this point, through regular contact home, ensuring engagement in home learning, and access to necessary facilities, the mitigation of these impacts has been a key priority and focus.

Moving forward, we recognise that some students need personalised provision and support to achieve their personal goals and ambitions, both academically and socially. It is our ambition that all students irrespective of background achieve their potential, by removing barriers to progression. This can be evidenced through our Curriculum offer and structure which is ambitious for all. This is fundamental in the pursuit of our core school values of Learning, Respect, Ambition and Achievement.

Shipston High School believes that “Quality First Teaching” for all of its students, based around developing outstanding teaching and the dissemination of best practice, high quality assessment and feedback and wider support for the “whole child” will support vulnerable students most effectively. This approach embraces the monitoring of performance, to actively seek out gaps in learning and planning key interventions to tackle them.

When making decisions about allocating our Pupil Premium Funding, we have made use of a range of research, such as the Education Endowment Foundation to ensure that the approaches we take are evidence led.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	The attendance of disadvantaged and vulnerable students is acting as a barrier to academic and social progression.
2	The attainment of vulnerable and disadvantaged pupils is lower than that of their peers, this has been exacerbated by the long term impact of the pandemic.
3	Vulnerable and disadvantaged pupils are less likely to receive academic support outside of school compared to their peers.
4	Vulnerable and disadvantaged pupils need greater pastoral support than their peers.

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
Attendance of vulnerable and disadvantaged students improves	Evidence from attendance data shows this is in-line with that of peers, across a range of attendance evidence.
Progress of vulnerable and disadvantaged students improves.	Evidence from internal and external examination data shows that progress of vulnerable and disadvantaged students is equal or exceeds that of their peers, across all year groups.
The needs of vulnerable and disadvantaged students are identified and interventions put in place.	All students have access to a laptop and the internet to be able to effectively progress their learning outside the classroom. Students identified as needing extra academic support / tuition receive extra tuition.
Additional Pastoral support put in place to further support vulnerable and disadvantaged pupils	Non-academic barriers to learning amongst vulnerable and disadvantaged pupils are identified and acted upon.

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.
