

Question	Answer	Marks	Notes and guidance
1	$\frac{1}{3} = \frac{\boxed{3}}{9}$	1	
2	$1\frac{1}{5}$ OR $\frac{6}{5}$	1	
3	$\frac{15}{35} = \frac{\boxed{3}}{7}$ $\frac{\boxed{12}}{16} = \frac{3}{4}$ $\frac{2}{5} = \frac{6}{\boxed{15}} = \frac{\boxed{18}}{45}$	4	Award 1 mark for each correctly indicated answer.
4	$1\frac{3}{4}$	1	
5	$\frac{18}{5}$	1	
6	$13\frac{7}{10} = \frac{\boxed{172}}{10}$ $\boxed{4}\frac{2}{3} = \frac{20}{3}$	2	Award 1 mark for each answer correctly indicated.
7	$\frac{5}{8}$	2	Award 1 mark for correct shading of the bar model and an incorrect response in the answer box.
8	$\frac{1}{4} \bigcirc \frac{1}{5}$ (with $>$ in the circle)	1	
	$\frac{4}{5} \bigcirc \frac{5}{6}$ (with $<$ in the circle)	1	
	$\frac{6}{6} \bigcirc \frac{5}{5}$ (with $=$ in the circle)	1	
9	Amir has $\frac{1}{6}$ of his juice left. Jo has $\frac{1}{8}$ of her juice left. $\frac{1}{6} > \frac{1}{8}$ so Amir has more juice left.	2	Accept any valid reason. Award 1 mark for sight of has $\frac{1}{6}$ and $\frac{1}{8}$
