Subtract from a mixed number

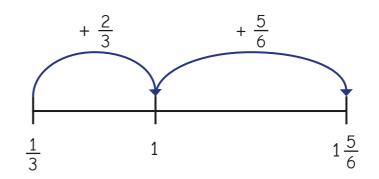

2 Dexter and Whitney are using number lines to work out $1\frac{5}{6} - \frac{1}{3}$

Dexter's method

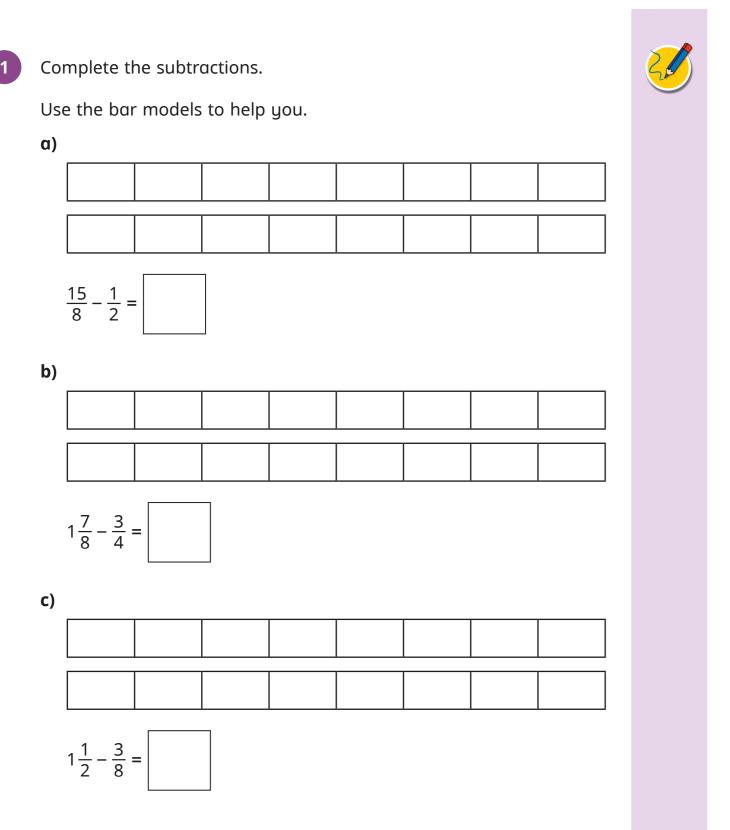

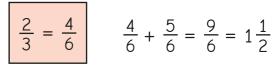

a) What is the same and what is different about these methods?

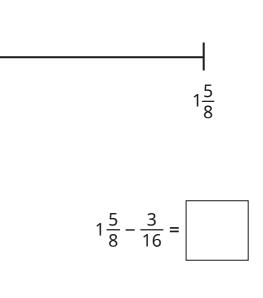

b) Use one of the methods to wor

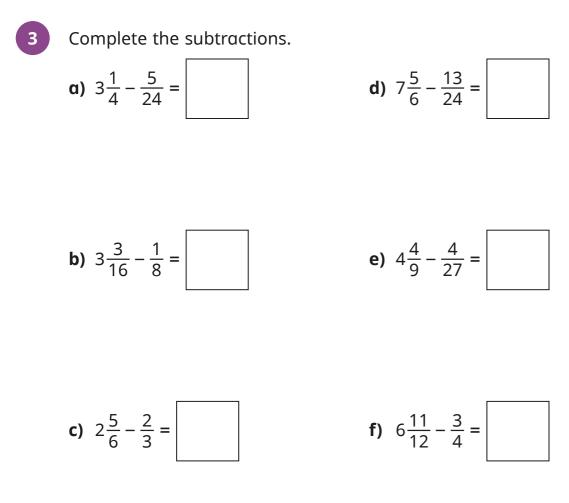

rk out
$$1\frac{5}{8} - \frac{3}{16}$$

A jug contains $1\frac{3}{5}$ litres of orange juice. 4 Eva pours $\frac{4}{15}$ of a litre into a glass. How much orange juice is left in the jug?

 $3\frac{1}{5} - \frac{1}{20} = 3\frac{1}{20}$ $3\frac{1}{5} - \frac{1}{20} = 3\frac{1}{20}$ $3\frac{1}{5} - \frac{1}{20} = 3\frac{1}{20}$

Are there any other ways to complete this calculation?

Three children take part in throwing competitions. 6 Here is the table of results.

	Javelin	Shot put	Discus
Tommy	15 <mark>3</mark> m	7 <u>5</u> m	
Amir	13 <mark>3</mark> m		12 7 m
Annie		8 3 m	11 <u>5</u> m

Use the clues to complete the table.

- Annie's javelin throw is $\frac{7}{12}$ m less than Tommy's.
- Amir's shot put throw is $\frac{3}{4}$ m less than Annie's.
- Tommy's discus throw is $\frac{1}{2}$ m less than Amir's.
