## Computing

A Media Focused Programme of LEarning for ICT / Computing, covering all aspects of the National Curriculum for England as outlined by the DfE. The programme encourages students to understand the changing nature of ICT and technology usage through engaging with it in creative ways. The programme has been designed to allow young people to complete a variety of qualifications at Key Stage 4 including the PEARSON CiDA and DiDA, GCSE Computer Science, Functional Skills ICT and the ASDAN Vocational Short Course.

Long Term overview of the topics that each class will study during each half term.			
	Key Stage 3	Year 10	Year 11
Autumn 1	Using and managing information	Creating Digital Graphics	Creating Digital Video
Autumn 2	Essential Digital Skills Creating and Editing		
Spring 1	Representation in Media	Computer Hardware and Software	The Online World
Spring 2	Communication		
Summer 1	Developing ideas and problem solving	Digital Portfolio	Review and Revision
Summer 2	Project		

Potential qualifications that can be achieved in this subject area:

GCSE, BTEC, Cambridge National, ASDAN, Functional Skills, Entry Level Certificate

Class: Key Stage 3					
Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
<p>LO 1 Be able to identify and select information and resources to meet personal and organizational needs.</p> <p>LO 2 Be able to evaluate researched information, adhering to procedures and copyright.</p> <p>LO 3 Be able to store information in line with an organisation's agreed procedures.</p> <p>Identify appropriate search facilities to find relevant information. Identify the different types of search engines.</p>	<p>LO1: Creating and editing documents.</p> <p>LO2: Editing and enhancing digital media.</p> <p>LO3: Processing numerical data.</p> <p>Apply layout and format features for documents. Identify the importance of adapting documents for a specific audience or purpose. Use images in documents. Create a newsletter style document. Select and modify images to suit a particular</p>	<p>LO 1 Be able to manage and promote their own digital reputation and online identity.</p> <p>LO 2 Be able to use social media and the internet to search opportunities and prepare applications for employment.</p> <p>LO 3 Be able to use technology to facilitate personal and professional learning and career progression.</p> <p>Identify the impact social media can have on future employment prospects of self and others.</p>	<p>LO1: Communicating and Sharing</p> <p>Appropriately use different modes of online communication.</p> <p>BSL Compare two types of electronic communication that you use.</p>	<p>LO1: Developing ideas and problem solving.</p> <p>Working to a brief.</p> <p>Working on a budget.</p> <p>Explain how you ensure you stay safe online.</p> <p>Explain the importance of sharing ideas.</p>	<p>LO1: create a multimedia presentation using text, images and sound. In creating their pages, pupils are expected to be sensitive to the needs of their audience.</p>

<p>Bookmarking information. Demonstrate that the information gathered is from reliable and credible sources. Understand the importance of producing quality information. Explain the importance of routine file housekeeping for efficient handling and retrieval of information. Explain organisational procedures for storing information.</p>	<p>purpose. Add and modify data within a spreadsheet.</p>	<p>Differentiate between real and online identities Explain the need to have separate identities for their personal life and professional/ work life. Demonstrate how to produce a personal traditional CV. Identify factors to research and plan for an interview using appropriate digital technology tools and social medi</p>
