

7th June 2013

Dear Parent/Carer

You are invited into school for an introduction to GCSE English and Mathematics Information Evening on Thursday 27th June. The event will run from 6.30pm to 7.30pm.

We will cover a range of useful information about the curriculum, including important assessment dates and how pupils learn key skills at school. What the key elements to success are and how students will be supported at school. We will also be introducing a range of strategies to support students' learning at home.

The evening will start with some overall information in the Auditorium then parents will be split into two groups for workshops, led by a key member of the English or Mathematics team. Parents will be given the chance to discuss strategies for home learning and how to support pupils to make good progress. Parents will also be given the opportunity to purchase revision guides and workbooks, which will help students to stay on top of their learning throughout the summer break.

This is an important event which focuses on learning and developing the Home/School partnership which is essential for pupils to reach their full potential. This evening is a key date in the parent calendar, we hope to see as many of you there as possible. Your child should accompany you to the event. Please complete the slip below to indicate if you are able to attend.

Unfortunately there will be no parking available on the school site.

Kind regards

Mrs E Roberts
