

Dear Parent/Carer

Please find attached the full evidence base for all subjects in the 2021 Examination Series.

The teachers and the Senior Team spent considerable time selecting what they feel is the most “fair and robust” range of work upon which to arrive at your final grade. We are not allowed to simply pick the “best” work. The evidence base has to be the same for all students taking a subject - unless an individual student has extenuating circumstances. In such cases, such as absence owing to illness or self-isolation, we will have selected an equivalent piece of work for you, so you are not disadvantaged. Where students have an evidence base that is **significantly** different to the rest of the cohort, we will communicate this with you directly.

Note: **Centre assessments** – These papers were sat in exam conditions in May 2021. The papers may have been abridged or shortened depending on the subject, so that students were only examined on the content they had been taught, but were made using whole exam papers or questions supplied by the exam board.

All students received their full suite of access arrangements for all centre assessments.
