

Hot weather

During hot weather we need to take some precautions to keep ourselves in peak learning conditions:

- Carry a bottle of water at all times
- Remove your blazer in hot areas such as corridors and playgrounds, please don't put your blazer out of sight, you should professionally carry your blazer. You will be expected to wear your blazer to and from school and in classrooms until given permission to remove it by your teacher

Luckily we have air conditioning in classrooms and so these areas should stay cool.

These precaution will end on Monday when the weather is set to drop down to a reasonable 24C. We have text this advice to your parents and will remind you on Monday to wear your blazers as normal.

Show how brilliant you are

You must have your blazer with you at all times, on show today and tomorrow

Top buttons and ties are still worn

Shirts must be tucked in at all times

On Monday we will return to blazer being worn when the temperature drops

Water Bottles

Please have a bottle of water with you to stay hydrated. Being hydrated will support your ability to learn

Water fighting will is not acceptable. Any water fights will be sanctioned with a Head's detention.
