

Dear Parents and Carers,

Alperton Community School has been invited to take part in a new initiative with the Metropolitan Police. The initiative is called Operation Encompass.

If a child or young person has been exposed to, or involved in, any domestic incident, the police will be able to report this to us before the next school day.

Under Operation Encompass, the school's Dedicated Safeguarding Lead (Mrs Manderson) will be trained to liaise with the police and to use the information that has been shared by the police. Operation Encompass will also ensure that the school is able to support children who have been affected by a domestic abuse incident.

As always, we want to offer the best support possible to all our students and their families and we hope that this initiative will be very beneficial for all those involved.

Yours sincerely

Gerard McKenna
Headteacher
