All the artwork in this online exhibition has been created at home during lockdown by Alperton students

The Art and Textiles Department is very proud of the creativity and resilience shown by our students

We hope this exhibition will help to lift your mood, brighten up your day and inspire you to be creative during this difficult time

If you would like your artwork to appear in future online exhibitions please email Miss Thompson.

“Creativity is not about being perfect but making an imperfect piece of work which expresses your emotions. So why don't you try to do something creative during lockdown. During this tough time, to de-stress yourself why not use pastels or crayons or even pencil to create art to express your creativity”

"I wanted to share these artworks because for around a year now, I have been drawing lots of portraits! Throughout my journey of drawing so many, I decided these were my best ones so far and I just thought it would be amazing to share them with the community. The message behind the "radical women" artwork was that I wanted to show the power that females have within them. Many women may not know what they're capable of and maybe this poster would give them a little bit of inspiration and make them forget about their insecurities. To be honest, nothing really inspired me to actually layout the artwork in this dripping form. It was just an idea that popped into my head and I thought it would just go well with the theme"

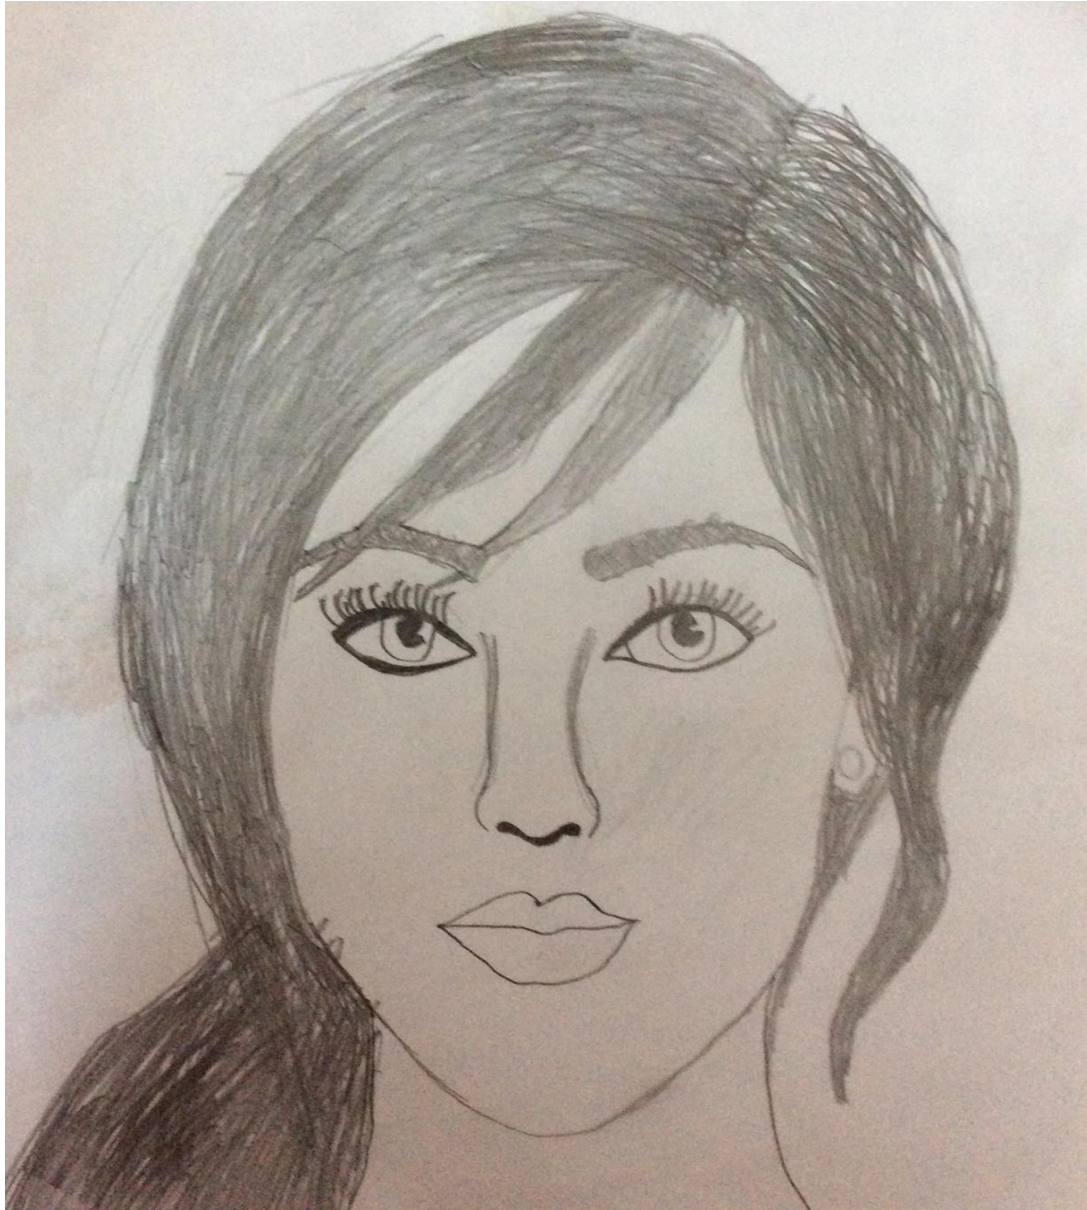

"I also think that all of you should try to at least be a little creative during lockdown because it can get very boring and being creative can also make you more talented."

Poem by Patryk

Every day I walk around,
but I still feel like a hound,
Trapped in a cage I call home,
But what feels like an underwater dome.
School I'd hate now I miss truly,
Friends I had now I'd wish to see,
The virus came for me,
but instead got all three,
now we stay stuck at home,
pondering, we'll be let out soon... surely.

Jahzara :

“Don’t worry about anything because, when this is all over you will be happy again to see your friends and family altogether. When this is all over you’ll be free to do what you want to do but for now we just need to stay at home and follow the government rules. I think you should watch this video it will help you in times like this
