Year 1

These are the Units of Work / Modules we study in Year 1

Unit 1 – Breadth study with interpretations [Germany and West Germany]:

This option comprises a study in breadth, where students will learn about key political changes experienced in a unified Germany and then in West Germany after the Second World War, and the impact of these changes on German economic, social and cultural developments. The focus of study is on developments and changes over a broad timescale and so the content is presented as themes spanning a significant duration: 1918–89. This option also contains a study in depth of historical interpretations on a broad question, which is contextualised by, and runs parallel to, the themes: how far Hitler's foreign policy was responsible for the Second World War.

Unit 2 – Depth study [The rise and fall of fascism in Italy, c1911–46]:

This option comprises a study in depth of the turbulent years in Italy that saw the collapse of the liberal state, the creation of a fascist dictatorship and a return to democracy in the aftermath of the Second World War. Students will gain an in-depth understanding of the extent and nature of the profound political, economic and social changes experienced by the Italian people in the years c1911–1946 and how the failure to create a stable, democratic Italian state in the early twentieth century led to the rise of a new political ideology and a personal dictatorship.
