## Vacuum Forming Process

I know now how to operate the vacuum forming machine and I also know how to warm up the machine. You put this sheet of material on the slip.

The tool is raised a mill the bottom surface of the sheet of material and a vacuum of air is applied in order.

Material is forced into the shape required.

This is the plastic is cooled with air to set hard. The vacuum forming can be removed by hand or with in use of air.

This is a final piece.

## A Saw (Hand Saw)

The function of a saw is to cut wood into a sheet or to cut a groove in wood.

## Coping Saw

The function of a coping saw is to cut out a shape from a piece of wood.

## Beck V-It

The function of a Beck V-It is to cut a V-shape into a piece of wood.

## Algebra Work

The function of algebra work is to solve equations.

## Try Square

The function of a try square is to check if a surface is square.

## Hand and Nail Cutter

The function of a hand and nail cutter is to cut nails.

What is your favourite tool? Why? and what is it used for?

I like the coping saw because it was safe for me and accurate.

How do you use it? I use it to cut out shapes from wood.

What is the most difficult part of using it? I find it difficult to use when cutting curves.

What is the most important part of using it? I think it is important to use the correct technique.

## FAN

A fan is a device that moves air to create a breeze or to provide ventilation, cooling, or air conditioning.

The fan is made of plastic and metal. It has a motor and blades. The blades are made of plastic and are attached to a central hub. The motor is made of metal and is attached to the back of the fan. The fan is used to cool the air and to provide ventilation.

The fan is used in many places. It is used in homes, schools, and offices. It is also used in hospitals and in other places where there is a need for fresh air.

The fan is a very useful device. It helps to keep the air cool and fresh. It is also used to provide ventilation in many places.

## FAN

**HOW** - HOW TO USE IT, HOW TO CLEAN IT, HOW TO REPAIR IT

**WHO** - WHO USES IT, WHO MAKES IT, WHO SELLERS IT

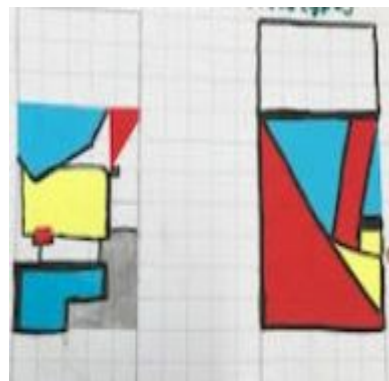

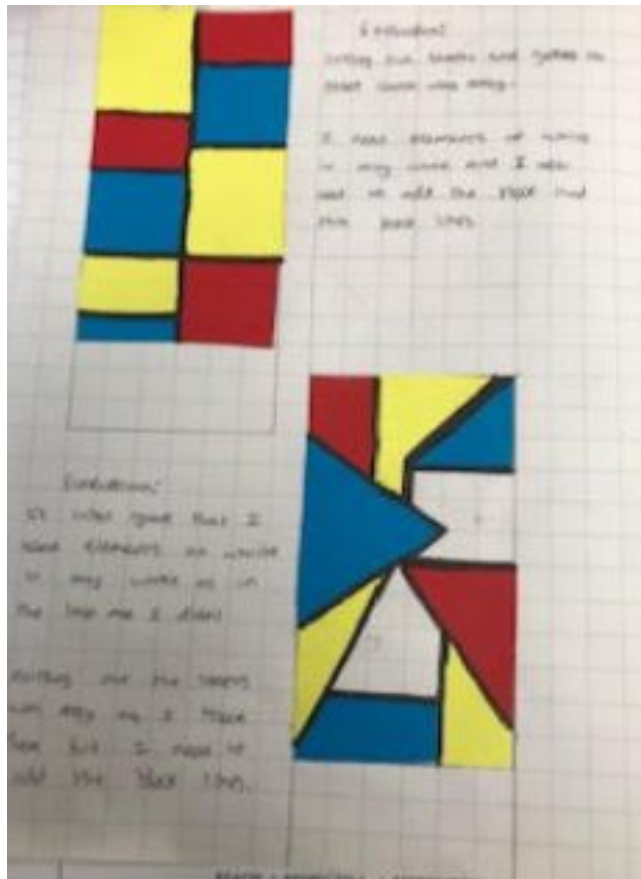

**WHEN** - WHEN TO USE IT, WHEN TO CLEAN IT, WHEN TO REPAIR IT

**WHERE** - WHERE TO USE IT, WHERE TO CLEAN IT, WHERE TO REPAIR IT

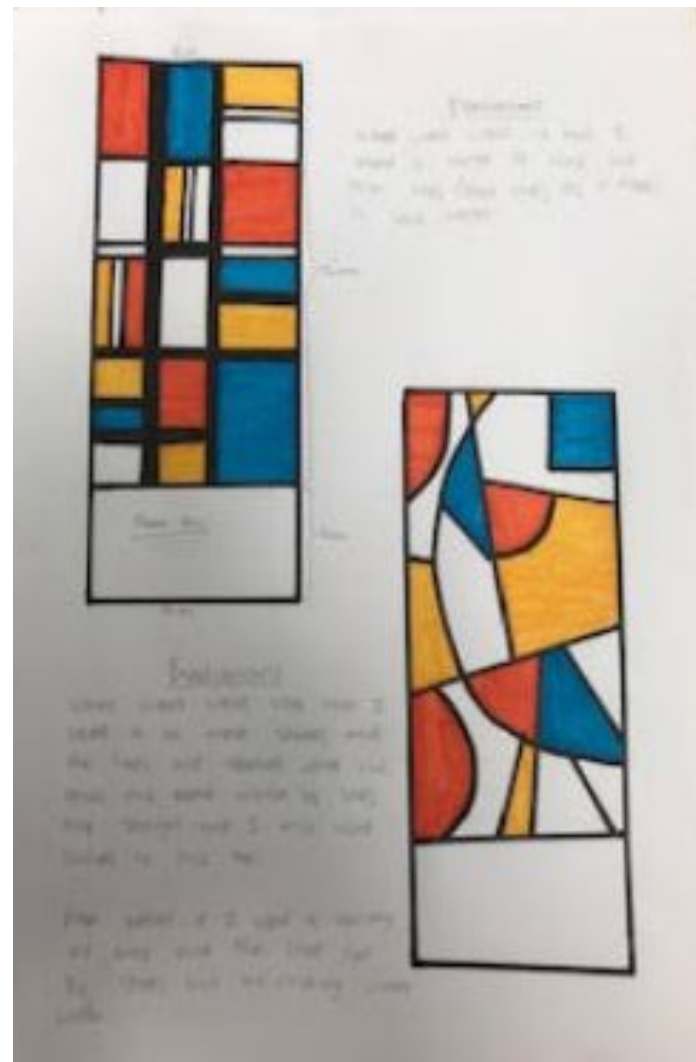

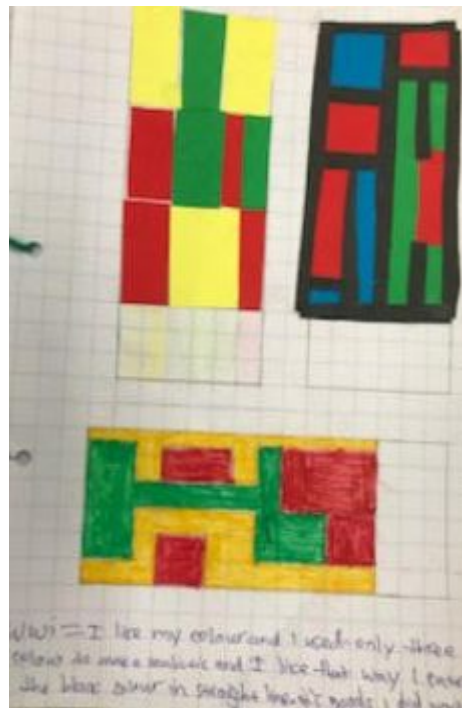

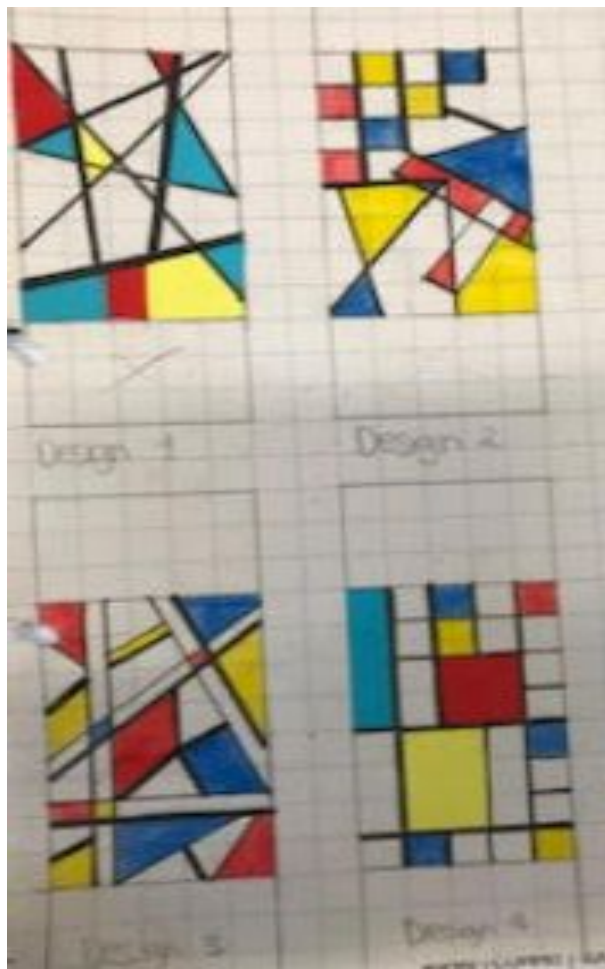

**TYPES** - TABLE FAN, CEILING FAN, PORTABLE FAN, WALL MOUNTED FAN

**MATERIALS** - PLASTIC, METAL, WOOD, GLASS, FABRIC
