

## Year 7 Geography

### What will be studied?

#### Topic(s)

**Term 1:**

Map Making: Students are introduced to the essential skills of mapmaking, a foundational aspect of understanding and interpreting the world around them.

Geography of UK and local area: Students will examine the various human and physical characteristics of places in the UK. They will explore how people interact with these places and how their own sense of place has developed.

**Term 2:**

Development: Students will explore the concept of development, focusing on how and why different regions of the world develop at varying rates.

Weather and Climate: Students will understand the differences between weather and climate and the factors affecting climate

**Term 3:**

World of Work: Students will learn about employment sectors globally, understanding how different industries contribute to the world of work.

Middle East : Students will develop a deeper understanding of its unique characteristics and its place within the broader global landscape.

#### How do you assess the learning?

Pupils will be formally assessed at the end of each unit of work, focussing on the content that they have covered during the half term. However, teachers will also use ongoing, formative assessment throughout all lessons.

### End of Year Examination

#### How will I be assessed at the end of the year?

Our end of year examination is an hour long assessment.

### How can I help my child?

#### Guidance and advice

All Home Learning will be shared on Bromcom Additional resources and quizzes are available on Seneca Finally, at home students should be reading articles, watching documentaries, and visiting museums.
