

What will you learn?

Topic(s)

Term 1

Rivers: This unit introduces students to the key concepts of river geography, from the formation of rivers to their role in shaping the environment.

Population: Students will explore how populations change over time due to birth rates, death rates, migration, and other demographic processes through case studies and real world examples.

Term 2

Sustainability: This unit introduces students to the concept of sustainability within the context of energy production and consumption.

Tectonics: Students embark on an exciting journey into the dynamic world of tectonics, exploring the forces that shape the Earth's surface and create geological features.

Term 3

Issue of Urbanisation: Students will learn about the factors driving urbanization, including rural-to-urban migration, natural population growth, and economic opportunities in cities

Africa: Students will investigate the physical landscape, human characteristics and the interactions that exist between them, acknowledging the diversity that exists across the continent.

How will you be assessed?

Overall assessment

Pupils will be formally assessed at the end of each unit of work, focussing on the content that they have covered during the half term. However, teachers will also use ongoing, formative assessment throughout all lessons.

End of Year assessment

Our end of year examination is an hour long assessment.

Which resources should you use?

Books, websites, online resources, trips and visits

All Home Learning will be shared on Bromcom. Additional resources and quizzes are available on Seneca. Finally, at home students should be reading articles, watching documentaries, and visiting museums.

What independent work can you do?

Books, websites, online resources

Use the VIP Zone, there you will find:

- An 'Independent Learning' folder full of resources and ideas to support your learning
- PLCs [Personal Learning Checks] - use these to rate your understanding of each topic and to recap and stretch your knowledge and skills.

Start revising. Try some of these to improve your understanding of each lesson and to help you prepare for assessments.

- **Summarise your notes:** Identify the key ideas and essential details. This technique improves understanding and retention by making information clearer and more manageable.
- **Flashcards:** Write key information on cards, don't forget to include an example
- **Mind maps:** Visually organize information by creating diagrams that connect ideas. This helps you see the relationships between topics.
- **Mnemonics:** Use songs, rhymes, or acronyms to help remember facts and figures.
- **Recording and replaying:** Record yourself reading notes and listen back to them.
- **Sticky notes:** Write / draw a key point on each note and place them around your house to help with memorisation.
