

Vehicle Block Diagram

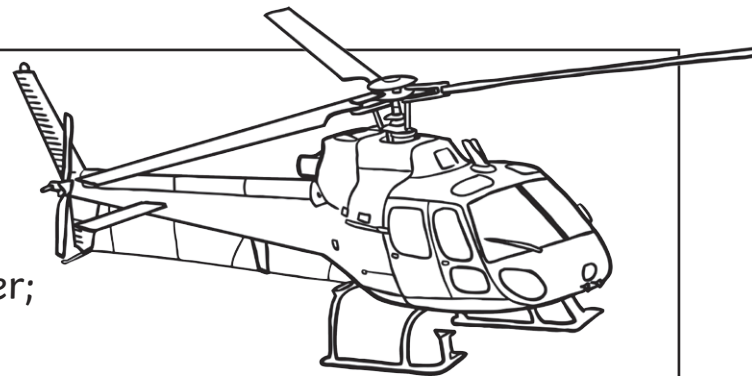

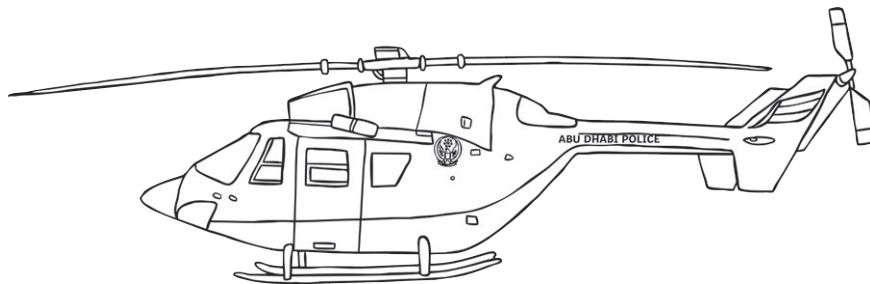

Amazing Fact

In 1861, the word 'helicopter' was first used for a machine which did not actually lift off the ground.

Challenge

Use the information on the activity sheet to make a block graph. For each vehicle, colour one block. Make sure you use a different colour to represent each vehicle.

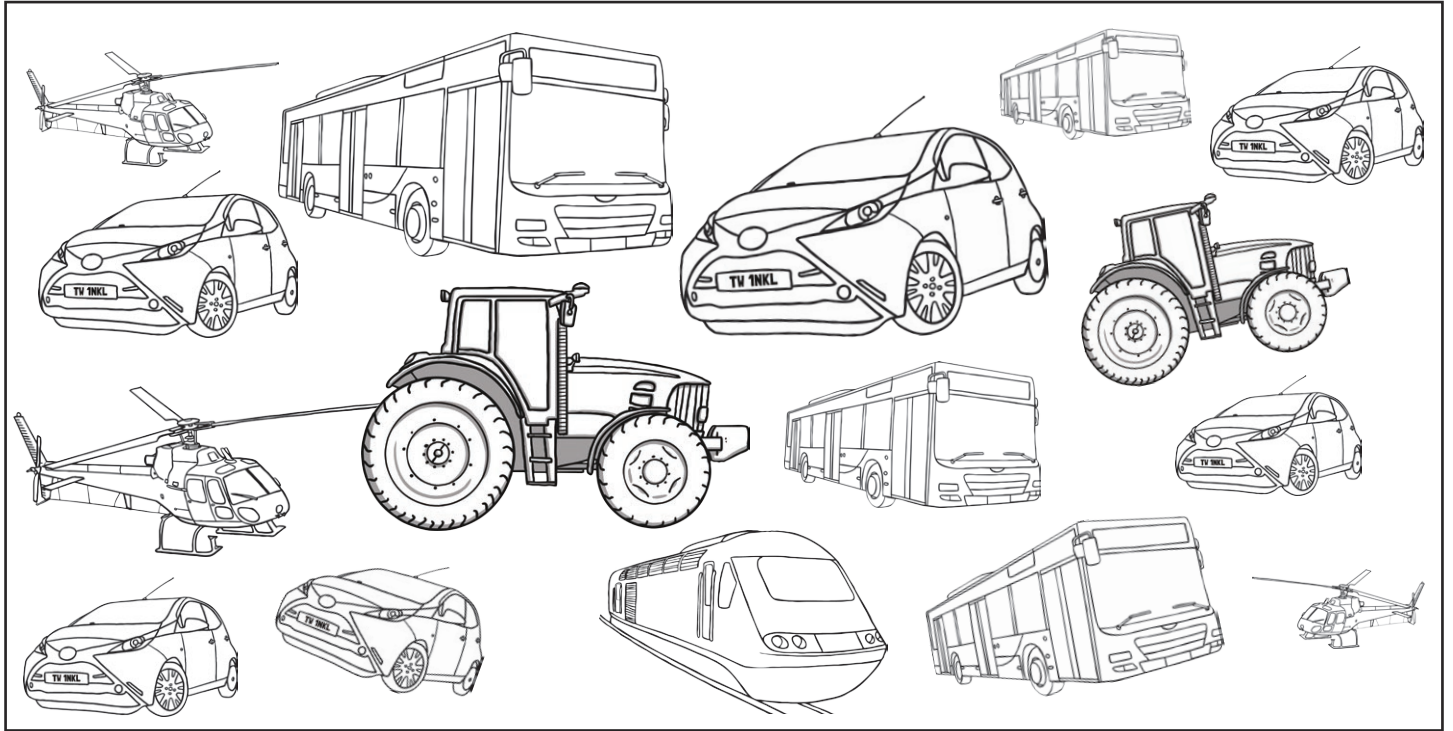

1. Which vehicle appears the most? _____
2. Which vehicle appears the least? _____
3. How many tractors and trains are there altogether? _____
4. What is the difference between the number of cars and the number of helicopters? _____
5. Which two types of vehicle total 10? _____
6. What is the difference between the number of buses and the number of tractors? _____

You could also try to find out:

- what helicopters are used for;
- who built the first flying helicopter;
- how helicopters work.

Vehicle Block Diagram

Colour a box for each vehicle that you find.
