

RISK ASSESSMENT Coronavirus (Covid 19)

South Tyneside Council

ACTIVITY: Coronavirus (COVID-19) Spread and Government Advice (REVISION 9) – 2/03/2021		DATE OF 2.03.21 9.02.21 6.01.21 16.11.2020
ESTABLISHMENT/SCHOOL Simonside Primary School	SECTION/TEAM All	
WHO MIGHT BE HARMED? Employees, pupils, trainees, students and visitors		HOW MANY ARE AFFECTED? 250+
<p>Steps of admitting more pupils (school has been open to between 2 - 6 pupils each day during lockdown) This document has been produced in conjunction with all Government guidance All risk has been assessed to minimise the spread of the virus as far as possible The risk assessment cannot guarantee safety of pupils and staff but if followed will mitigate risk as far as possible It is staff members' responsibility read and understand this document and implement the measures described It is staff member's responsibility to ensure that pupils adhere to all social distancing (SD) measures</p> <pre> graph LR A[Determine Staff Availability to Work On-site] --> B[Plan Asymptomatic Testing approach. Primary Staff, Secondary Staff & Students] B --> C[Undertake Risk Assessment and Action Plan] C --> D[Engage Governing Body, Staff and Union Reps in the Plans for Full Re-opening] D --> E[Make Any Minor Adaptations to Site as Necessary] E --> F[Complete Identified Actions] F --> G[Determine Contingency Plans including Remote Learning Provision] G --> H[Inform Parents of Arrangements for Full Re-opening] </pre>		
<p>This Risk Assessment sets out the decisions taken and measures put in place to prepare for the phased re-opening of the school and ensure the school continues to operate in a safe way. Existing policies and guidance continue to apply alongside the actions within this document, including but not limited to:</p> <ul style="list-style-type: none"> • Health and Safety Policy • First Aid Policy • Child Protection Policy • CYP Response Plan 		

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

ACTIVITY: Coronavirus (COVID-19) Spread and Government Advice				DATE OF ASSESSMENT	
HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	if in place ✗ if not	IF '☐' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low	
<ul style="list-style-type: none"> • DFE Guidance relating to COVID19 • The Health and Safety at Work etc. Act 1974 • Management of Health and Safety at Work Regulations 1999 • Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) 2013 • First Aid Regulations 1981 • The Health Protection (Notification) Regulations 2010 • Public Health England (PHE) (2017) 'Health protection in schools and other childcare facilities' 					
Premises and equipment, water, etc. not maintained to statutory requirements:	Premises and utilities have been health and safety checked and building is compliant <ul style="list-style-type: none"> • Water treatments • Fire alarm testing • Repairs • PAT testing • Fridges and freezers • Boiler/ heating servicing • Internet services • Any other statutory inspections • Insurance covers reopening arrangements • Fire Risk Assessment and evacuation procedures reviewed and disseminated to all staff. <p>It is important that, prior to reopening for the autumn term, all the usual pre-term building checks are undertaken to make the school safe. If buildings have been closed or had reduced occupancy during the coronavirus (COVID-19) outbreak, water system stagnation can occur due to lack of use, increasing the risks of Legionnaires' disease. Advice on this can be found in the guidance on Legionella risks during the coronavirus outbreak.</p>	Yes	Simonside Action: <ul style="list-style-type: none"> • Site Supervisor (SS) has continued with daily and weekly checks around school in line with his job description. • All external inspections have taken place as arranged. • All repairs have been undertaken via STC Asset Management Dept. • All PAT Testing conducted (1.5.2020) • Insurance arranged via STC. • Fridges currently available to staff to be thoroughly cleaned at the end of each day by cleaning staff. • Internet and computing facilities remain the responsibility of current provider - ICT in Schools. • All current school RA reviewed. • There may be incidents in school where social distancing is not safe to do so (eg in case of fire). Where possible SD will be maintained if safe to do so at assembly point. Fire procedure:	L	

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

ACTIVITY: Coronavirus (COVID-19) Spread and Government Advice				DATE OF ASSESSMENT	
HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	if in place ✗ if not	IF '□' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low	
	<p>Additional advice on safely reoccupying buildings can be found in the Chartered Institute of Building Services Engineers' guidance on emerging from lockdown.</p> <p>Once the school is in operation, it is important to ensure good ventilation. Advice on this can be found in Health and Safety Executive guidance on air conditioning and ventilation during the coronavirus outbreak.</p> <p>In classrooms, it will be important that schools improve ventilation (for example, by opening windows).</p> <p>Science and chemical stores Check the chemical store: There may have been a spill or leak so keep safe by reading GL246 before going in, and check GL247 and GL252 for further details and advice on what to look for.</p> <p>Be particularly careful if the weather has been hot or you are unsure that the store is ventilated well.</p> <p>If you need any help or advice contact the CLEAPSS Helpline https://science.cleapss.org.uk/helpline/</p>		<ul style="list-style-type: none"> ○ During this period it cannot be guaranteed that fire wardens will be available. ○ The teacher in classroom bubbles is therefore to take charge of pupils and staff in their bubble and ensure everyone leaves the building. ○ All other staff to ensure they leave the building as soon as possible. ○ Office staff to ensure a record of all staff on site is available. It is essential that all staff on site sign in at reception. ○ Teacher to inform office staff of any missing people from their bubble. ○ No member of staff to enter building if a fire incident is in place unless they are trained as a fire warden. ○ Reception staff to telephone 999 emergency services as soon as possible. ○ Fire evacuation point to remain as school yard. 		
	<p>The 'BUILDING RA COVID' assessment has been revised and updated for the general running of the building.</p> <p>NB: TWFRS who has confirmed that wedging doors open is not best practice, however due to the COVID-19 crisis wedging classroom doors can be done, but cross corridor doors and doors leading on to a fire escape or stairway must remain in the closed position at all times</p> <p>Any door wedged open must have the wedge removed when the class is vacant even for the shortest period and the school must risk assess this.</p>	Yes	<p>Simonside Action:</p> <ul style="list-style-type: none"> ● New internal layouts and access points agreed. ● Classroom and office doors to be wedged open during use but left closed when vacated. ● All internal and external fire doors to remain closed as per normal building practice. ● All fire escapes routes to be kept clear at all times, as per normal building practice. 	L	

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

ACTIVITY: Coronavirus (COVID-19) Spread and Government Advice				DATE OF ASSESSMENT	
HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	if in place ✗ if not	IF '☐' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low	
	<p>As for installing barriers in front of doors this is not acceptable under any circumstance, should an area need to be segregated then the use of signage and Fire Exit Door Security Seals should be used which would snap if the door is forced open allowing anyone emergency egress if necessary.</p> <p>Large quantities of high-alcohol-content hand sanitiser should be stored it in a locked storage cupboard or metal cabinet and controlled like other combustibles.</p>				

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	if in place ✗ if not	IF '☐' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low	
Risk of coronavirus infection spreading to children and staff due to inadequate infection control procedure	<p>The school will ensure that pupils clean their hands regularly, including when they arrive at school, when they return from breaks, when they change rooms and before and after eating. Regular and thorough hand cleaning is going to be needed for the foreseeable future. Points to consider and implement:</p> <ul style="list-style-type: none"> • has the school enough hand washing or hand sanitiser 'stations' available so that all pupils and staff can clean their hands regularly • can the school ensure that there is enough supervision when using hand sanitiser to eliminate ingestion. Small children and pupils with complex needs should continue to be helped to clean their hands properly. Skin friendly skin cleaning wipes can be used as an alternative • the school will build these routines into school culture, supported by behaviour expectations and helping ensure younger children and those with complex needs understand the need to follow them • Soap and water is more effective than using sanitisers <p>The 'catch it, bin it, kill it' approach continues to be very important, so schools must ensure that they have enough tissues and bins available in the school to support pupils and staff to follow this routine. As with hand cleaning, schools must ensure younger children and those with complex needs are helped to get this right, and all pupils understand that this is now part of how school operates. Some pupils with complex needs will struggle to maintain as good respiratory hygiene as their peers, for example those who spit uncontrollably or use saliva as a sensory stimulant. This should be considered in risk assessments in order to support these pupils and the staff working with them and is not a reason to deny these pupils face to face education.</p>	Yes	<p>Simonside Action:</p> <ul style="list-style-type: none"> • Updates from DFE forwarded to HT and SMT. All read info within the updates and action as necessary. Info shared with wider school population as necessary. • All government guidelines have been taken into account when assessing the school for risk and for agreeing new building layout. • Key hygiene information located around school. Prevent and symptoms information shared with pupils at the start of each day. Info shared on social media so all school population is aware of measures taken. • HT/DHT to share video/pictures of school on social media. This will show school population the measures we have taken to allow more pupils to attend school. This will also be used by parents to prepare pupils for the changes they will see when attending. • Letter to parents - asking them to share good practice with pupils at home and to encourage the continuation of this behaviour at school. • Cleaning Information: • After each use of school equipment, staff members are expected to wipe the item clean (eg photocopier, keyboard, telephone, etc). Non classroom members of staff to wipe down their own work area, including chair, telephone, keyboard, at the end of each work shift. These areas will 	L	

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

ACTIVITY: Coronavirus (COVID-19) Spread and Government Advice				DATE OF ASSESSMENT	
HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	if in place ✗ if not	IF '□' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low	
	<p>Public Health England does not (based on current evidence) recommend the use of face coverings in schools. This evidence will be kept under review. They are not required in schools as pupils and staff are mixing in consistent groups, and because misuse may inadvertently increase the risk of transmission. There may also be negative effects on communication and thus education. Face coverings are required at all times on public transport (for children over the age of 11) or when attending a hospital as a visitor or outpatient.</p> <p>Points to consider and implement:</p> <ul style="list-style-type: none"> • putting in place a cleaning schedule that ensures cleaning is generally enhanced and includes: <ul style="list-style-type: none"> ○ more frequent cleaning of rooms / shared areas that are used by different groups ○ frequently touched surfaces being cleaned more often than normal • toilets will need to be cleaned regularly and pupils must be encouraged to clean their hands thoroughly after using the toilet - different groups being allocated their own toilet blocks could be considered but is not a requirement if the site does not allow for it <p>See COVID-19: cleaning of non-healthcare settings guidance for cleaning information.</p>		<p>be cleaned by the cleaner but this is an additional cleaning measure.</p> <ul style="list-style-type: none"> • Telephones in corridors/staffroom to be cleaned by last member of staff to use them using wipes provided. • SS will be supervising all cleaning in the school. • HT and SS will ensure all cleaning in school will be at the highest level. • All classroom bubbles will have a hand sanitiser station. • All pupils and staff members have access to soap and water - either in classroom bubble or in the toilet areas. • Cleaning equipment - stock take conducted on a daily basis to ensure good stocks of everything needed in school to ensure good hygiene measures. • All pupils issued with their own stationery wallet - items and bag to be cleaned by pupils at the end of each day. • All classes to be issued with box of PE/sporting equipment for outdoor use - items to be cleaned after use and at the end of the day by class-based staff. • All pupils' work will be stored in A3 plastic zip wallet. • Pupils will not bring any equipment into school other than coat, packed lunch, water bottle, P.E. kit, ipad. • Teacher to reinforce cleaning and hygiene messages during the day. • Teachers to supervise hand washing and hand sanitising. 		

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

Child/Adult is unwell and it is believed that they have been exposed to COVID-19.	<p>Ensure that pupils, staff and other adults do not come into the school if they have coronavirus (COVID-19) symptoms, or have tested positive in the last 10 days, and ensuring anyone developing those symptoms during the school day is sent home, are essential actions to reduce the risk in schools and further drive down transmission of coronavirus (COVID-19). All schools must follow this process and ensure all staff are aware of it.</p> <p>If anyone in the school becomes unwell with a new, continuous cough or a high temperature, or has a loss of, or change in, their normal sense of taste or smell (anosmia), they must be sent home and advised to follow 'stay at home: guidance for households with possible or confirmed coronavirus (COVID-19) infection', which sets out that they must self-isolate for at least 10 days and should arrange to have a test to see if they have coronavirus (COVID-19).</p> <p>If they have tested positive whilst not experiencing symptoms but develop symptoms during the isolation period, they should restart the 10 day isolation period from the day they develop symptoms. This only applies to those who begin their isolation on or after 30 July. Other members of their household (including any siblings) should self-isolate for 14 days from when the symptomatic person first had symptoms.</p> <p>If a child is awaiting collection, they should be moved, if possible, to a room where they can be isolated behind a closed door, depending on the age and needs of the child, with appropriate adult supervision if required. Ideally, a window should be opened for ventilation. If it is not possible to isolate them, move them to an area which is at least 2 metres away from other people.</p> <p>If they need to go to the bathroom while waiting to be collected, they should use a separate bathroom if possible. The bathroom must be cleaned and disinfected using standard cleaning products before being used by anyone else.</p> <p>PPE must be worn by staff caring for the child while they await collection if a distance of 2 metres cannot be maintained (such as for a very young child or a child with complex needs). More information</p>	yes	<p>Simonside Action:</p> <ul style="list-style-type: none"> • Symptom advice shared on social media. "Do not attend ..." poster shared with parents. • First aid /sick bay established in old library room. Only use of this room during this period. • At least one first aider on site at all times when pupils are present. If the named first aider is off due to sickness, HT will allocate staffing to cover this. If it is not possible to have a first aider on site, staff to inform SMT of the incident. SMT is aware to call emergency services if required. No first aid to be administered unless this is by a trained first aider. • PPE available for use by all staff and pupils. Video shared to staff about how to use the equipment safely. • Staff giving first aid must wear a face covering. • Staff wearing face covering are advised to: <ul style="list-style-type: none"> ○ wash hands thoroughly with soap and water for 20 seconds or use hand sanitiser before putting face covering on and after removing it. ○ Avoid touching face or face covering as you could contaminate them with germs from hands. ○ Change face covering if it becomes damp or or you have been touching it. 	M	

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

	<p>on PPE use can be found in the safe working in education, childcare and children's social care settings, including the use of personal protective equipment (PPE) guidance.</p> <p>As is usual practice, in an emergency, call 999 if someone is seriously ill or injured or their life is at risk. Anyone with coronavirus (COVID-19) symptoms should not visit the GP, pharmacy, urgent care centre or a hospital.</p> <p>Any members of staff who have helped someone with symptoms and any pupils who have been in close contact with them do not need to go home to self-isolate unless they develop symptoms themselves (in which case, they should arrange a test) or if the symptomatic person subsequently tests positive (see below) or they have been requested to do so by NHS Test and Trace.</p> <p>Everyone must wash their hands thoroughly for 20 seconds with soap and running water or use hand sanitiser after any contact with someone who is unwell. The area around the person with symptoms must be cleaned with normal household bleach after they have left to reduce the risk of passing the infection on to other people. See the COVID-19: cleaning of non-healthcare settings guidance.</p> <p>Public Health England is clear that routinely taking the temperature of pupils is not recommended as this is an unreliable method for identifying coronavirus (COVID-19).</p>		<ul style="list-style-type: none"> ○ Continue to wash hands regularly. ○ Change and wash face covering daily. ○ If the material is washable, was in line with manufacturer's instructions. If it is not washable - dispose of it carefully in the normal waste. ○ Practise SD whenever possible. <ul style="list-style-type: none"> ● Any child showing any symptoms will be taken to this room to await their parents collection. <p>Procedure for pupils with symptoms</p> <ul style="list-style-type: none"> ● Classroom staff take child to first aid / sick bay area. Sit child near window and open window. ● Classroom staff phone office who will contact a first aider to come over to sick bay. ● When first aider arrives, they put on all necessary PPE equipment. ● Once first aider is prepared, classroom staff can now return to their classroom. ● First aider to stay with child until collected. ● Office staff to call parents if any child shows any symptoms. ● Parents informed that they must be available to collect their child immediately if we call them with this information. If a parent is unable or unwilling to collect their child immediately, office staff will inform member of SLT immediately and this will be dealt with as a safeguarding issue. 		

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

			<ul style="list-style-type: none"> After pupil use - classroom staff to inform office that toilet has been used - office to contact SS or cleaner who will be given information to clean that specific toilet. After adult use - inform office staff after use and same procedure will apply. Sick bay / first aid area -staff toilet will be used by pupils needing to use it whilst in the sick bay/first aid area. 		
Risk of coronavirus infection spreading to shielded and clinically vulnerable adults	<p>Where schools implement the system of controls outlined in this document, in line with their own workplace risk assessment, PHE and DHSC confirm that these measures create an inherently safer environment for children and staff where the risk of transmission of infection is substantially reduced.</p> <p>As a result, on current evidence, PHE and DHSC advise that schools are not currently considered high risk settings when compared to other workplace environments. Rates of community transmission of coronavirus (COVID-19) are now reduced to levels below those seen when shielding was introduced, and shielding measures will be paused from 1 August 2020, with the exception of areas where local lockdown means that shielding will continue. It is therefore appropriate for teachers and other school staff to return to their workplace setting. Accordingly, we expect that staff who need to will attend school.</p> <p>From 1 August, wider government policy on going to work is expected to change, with employers to be given more discretion about where staff work. Most school-based roles are not ideally suited to home working and schools may expect most staff to return to work in settings. Some roles, such as some administrative roles, may be conducive to home working, and school leaders should consider what is feasible and appropriate.</p>	yes	<p>Simonside Actions:</p> <ul style="list-style-type: none"> HT will follow all advice given by Government and LA HR. All staff working on school premises, SD must be adhered to wherever possible. PPE and cleaning products available to all. A risk assessment will be carried out for any staff who are pregnant. RA to be shared with all school staff; asking all staff members to read the document and reply to say they have done so. Even if a staff member does not reply to say they have read the document, it will be assumed that they have done so and are willing to follow all guidelines outlined. It is felt that as part of the staff team of Simonside Primary School, it is staff's professional responsibility to read this document. If a staff member does not agree with any part of the RA, they are to email the HT with their concerns. These will be 	L	

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

ACTIVITY: Coronavirus (COVID-19) Spread and Government Advice				DATE OF ASSESSMENT	
HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	if in place ✗ if not	IF '☐' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low	
	<p>All staff should follow the measures set out in the system of controls section of this guidance to minimise the risks of transmission. This includes continuing to observe good hand and respiratory hygiene and maintaining social distancing in line with the provisions as set out in part 5 of the 'Prevention' section.</p> <p>School leaders should explain to staff the measures the school is putting in place to reduce risks. We anticipate adherence to the measures in this guidance will provide the necessary reassurance for staff to return to schools.</p> <p>If staff are concerned, including those who may be clinically vulnerable, clinically extremely vulnerable or at increased comparative risk from coronavirus, we recommend school leaders discuss any concerns individuals may have around their particular circumstances and reassure staff about the protective measures in place.</p> <p>Staff who are clinically extremely vulnerable</p> <p>Rates of community transmission of coronavirus (COVID-19) are now reduced to levels below those seen when shielding was introduced. Shielding measures will therefore be paused from the 1 August 2020, with the exception of areas where local lockdown means that shielding will continue. Therefore, we advise that those who are clinically extremely vulnerable can return to school in September 2020 provided their school has implemented the system of controls outlined in this document, in line with the school's own workplace risk assessment. In all respects, the clinically extremely vulnerable should now follow the same guidance as the clinically vulnerable population, taking particular care to practise frequent, thorough hand washing, and cleaning of frequently touched areas in their home and/or workspace.</p> <p>Staff who are clinically vulnerable</p> <p>Clinically vulnerable staff can return to school in September. While in school they should follow the sector-specific measures in this document to minimise the risks of transmission.</p> <p>This includes taking particular care to observe good hand and respiratory hygiene, minimising contact and maintaining social</p>		<p>discussed with SMT and answer given as soon as possible.</p> <ul style="list-style-type: none"> Staff have been and will continue to be given opportunity to raise any concerns they have around their safety via SMT in school or via their union. 		

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

ACTIVITY: Coronavirus (COVID-19) Spread and Government Advice				DATE OF ASSESSMENT	
HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	if in place ✗ if not	IF '□' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low	
	<p>distancing in line with the provisions set out in section 5 of the 'Prevention' section of this guidance. This provides that ideally, adults should maintain 2 metre distance from others, and where this is not possible avoid close face to face contact and minimise time spent within 1 metre of others. While the risk of transmission between young children and adults is likely to be low, adults should continue to take care to socially distance from other adults including older children/adolescents.</p> <p>People who live with those who are clinically extremely vulnerable or clinically vulnerable can attend the workplace.</p> <p>Staff who are pregnant Pregnant women are in the 'clinically vulnerable' category, and are generally advised to follow the above advice, which applies to all staff in schools. Employers should conduct a risk assessment for pregnant women in line with the Management of Health and Safety at Work Regulations 1999 (MHSW) https://www.southtyneside.gov.uk/article/36422/Health-and-Safety-Manual-2019 - see Section 3.10 and Appendix F. The Royal College of Obstetrics and Gynaecology (RCOG) has published occupational health advice for employers and pregnant women. This document includes advice for women from 28 weeks gestation or with underlying health conditions who may be at greater risk. We advise employers and pregnant women to follow this advice and to continue to monitor for future updates to it.</p> <p>Staff who may otherwise be at increased risk from coronavirus (COVID-19) Some people with particular characteristics may be at comparatively increased risk from coronavirus (COVID-19), as set out in the COVID-19: review of disparities in risks and outcomes report, which looked at different factors including age and sex, where people live, deprivation, ethnicity, people's occupation and care home residence. These staff can return to school in September as long as the system of controls set out in this guidance are in place. The reasons for the disparities</p>				

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

	are complex and there is ongoing research to understand and translate these findings for individuals in the future. People who live with those who have comparatively increased risk from coronavirus (COVID-19) can attend the workplace.				
Risk of coronavirus infection spreading to shielded and clinically vulnerable persons via pupil or staff attending school	<p>Pupils who are shielding or self-isolating We now know much more about coronavirus (COVID-19) and so in future there will be far fewer children and young people advised to shield whenever community transmission rates are high. Therefore, the majority of pupils will be able to return to school. You should note however that:</p> <ul style="list-style-type: none"> • a small number of pupils will still be unable to attend in line with public health advice because they are self-isolating and have had symptoms or a positive test result themselves; or because they are a close contact of someone who has coronavirus (COVID-19) • shielding advice for all adults and children will pause on 1 August, subject to a continued decline in the rates of community transmission of coronavirus (COVID-19). This means that even the small number of pupils who will remain on the shielded patient list can also return to school, as can those who have family members who are shielding. Read the current advice on shielding • if rates of the disease rise in local areas, children (or family members) from that area, and that area only, will be advised to shield during the period where rates remain high and therefore they may be temporarily absent (see below). • some pupils no longer required to shield but who generally remain under the care of a specialist health professional may need to discuss their care with their health professional before returning to school (usually at their next planned clinical appointment). You can find more advice from the Royal College of Paediatrics and Child Health at COVID-19 - 'shielding' guidance for children and young people. 		<p>Simonside Action:</p> <p>All parents informed of requirements within school and informed if their child cannot or will not follow procedures put in place, we will discuss this with parents and actions taken.</p> <p>Pupils not offered a place will be encouraged to continue learning with school's daily homework tasks.</p> <p>Inclusion and Attendance Officers will continue to call these pupils weekly to check in on them and ensure all is well.</p> <p>All safeguarding concerns will continue to be reported to the school's DSL for action.</p>	L	

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. Risk of coronavirus infection spreading due to large class sizes and reduced space	<p>The school will minimise contacts and mixing between people while delivering a broad and balanced curriculum.</p> <p>The overarching principle to apply is reducing the number of contacts between children and staff. This can be achieved through keeping groups separate (in 'bubbles') and through maintaining distance between individuals. These are not alternative options and both measures will help, but the balance between them will change depending on:</p> <ul style="list-style-type: none"> • children's ability to distance • the lay out of the school • the feasibility of keeping distinct groups separate while offering a broad curriculum (especially at secondary) <p>It is likely that for younger children the emphasis will be on separating groups, and for older children it will be on distancing. For children old enough, they should also be supported to maintain distance and not touch staff where possible.</p> <p>Points to consider and implement:</p> <p>How to group children</p> <p>Consistent groups reduce the risk of transmission by limiting the number of pupils and staff in contact with each other to only those within the group. They have been used in schools in the summer term in recognition that children, and especially the youngest children, cannot socially distance from staff or from each other and this provides an additional protective measure. Maintaining distinct groups or 'bubbles' that do not mix makes it quicker and easier in the event of a positive case to identify those who may need to self-isolate and keep that number as small as possible.</p> <p>However, the use of small groups restricts the normal operation of schools and presents both educational and logistical challenges,</p>	yes	<p>Early Years</p> <ul style="list-style-type: none"> • Early Years will be treated as one bubble. • The same staff will work within Early Years. • All soft furnishings, and anything that is difficult to clean will be removed. • All unnecessary furniture will be removed. • There will be no access to shared sand, bark and soil. • Windows and doors to outdoor environment will be open as much as possible. • There will be a daily routine of handwashing which is supervised. • Snack and meal times will be organised so that the Early Years bubble does not mix with other bubbles in school. • Early years will follow a remove, reduce, rotate or quarantine system. • Quarantined items will be labelled and stored in a designated area until the quarantine period has ended. • Resources which are used every day will be cleaned at the end of each day. • Staff will wear PPE for any intimate care and disinfect any contaminated areas/ materials. • Daily disposal of cardboard. • Daily cleaning of gravel and stones. • Not all areas of continuous provision will be open every day. 	M	

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	if in place ✗ if not	IF '□' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low	
	<p>including the cleaning and use of shared spaces, such as playgrounds, boarding houses, dining halls, and toilets, and the provision of specialist teaching. This is the case in both primary and secondary schools, but is particularly difficult in secondary schools.</p> <p>In this guidance for the autumn term, maintaining consistent groups remains important, but given the decrease in the prevalence of coronavirus (COVID-19) and the resumption of the full range of curriculum subjects, schools may need to change the emphasis on bubbles within their system of controls and increase the size of these groups.</p> <p>In secondary schools, and key stage 4 and key stage 5, the groups are likely to need to be the size of a year group to enable schools to deliver the full range of curriculum subjects and students to receive specialist teaching. If this can be achieved with small groups, they are recommended. At primary school, and in the younger years at secondary (key stage 3), schools may be able to implement smaller groups the size of a full class. If that can be achieved, it is recommended, as this will help to reduce the number of people who could be asked to isolate should someone in a group become ill with coronavirus (COVID-19).</p> <p>Schools should assess their circumstances and if class-sized groups are not compatible with offering a full range of subjects or managing the practical logistics within and around school, they can look to implement year group sized 'bubbles'. Whatever the size of the group, they should be kept apart from other groups where possible and older children should be encouraged to keep their distance within groups. Schools with the capability to do it should take steps to limit interaction, sharing of rooms and social spaces between groups as much as possible. When using larger groups the other measures from the system of controls become even more important, to minimise transmission risks and to minimise the numbers of pupils and staff</p>		<ul style="list-style-type: none"> • The amount of sitting time will be limited and children will be encouraged to maintain a safe distance. • All rooms in use will have posters and health information on display - specifically targeted at pupils. • Furniture will be organised so that children sit side by side rather than opposite each other. • The teacher will maintain at least a 2m distance from children wherever possible. • Staff will teach alongside children rather than face to face, wherever possible. • Each day the teacher will remind children of rules regarding SD. • Each day all staff will be vigilant in recognising possible signs of infection in children e.g. continuous cough, high temperature, • Actions performed by school to ensure contact between people is kept to a minimum: <p>Detail:</p> <p>1. Reception area / sign in & out area</p>		

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

	<p>who may need to self-isolate. We recognise that younger children will not be able to maintain social distancing, and it is acceptable for them not to distance within their group.</p> <p>Both the approaches of separating groups and maintaining distance are not 'all-or-nothing' options, and will still bring benefits even if implemented partially. Some schools may keep children in their class groups for the majority of the classroom time, but also allow mixing into wider groups for specialist teaching, wraparound care and transport, or for boarding pupils in one group residentially and another during the school day. Siblings may also be in different groups. Endeavouring to keep these groups at least partially separate and minimising contacts between children will still offer public health benefits as it reduces the network of possible direct transmission. All teachers and other staff can operate across different classes and year groups in order to facilitate the delivery of the school timetable. This will be particularly important for secondary schools. Where staff need to move between classes and year groups, they should try and keep their distance from pupils and other staff as much as they can, ideally 2 metres from other adults. Again, we recognise this is not likely to be possible with younger children and teachers in primary schools can still work across groups if that is needed to enable a full educational offer.</p> <p>Measures within the classroom</p> <p>WHEN PLACED UNDER TIER 5 NATIONAL LOCKDOWN THE FOLLOWING MEASURES WILL BE IN PLACE</p> <ul style="list-style-type: none"> • Wherever possible in school, social distancing between pupils and staff should be adhered to. • During local and national lock-downs, the children who are regarded as vulnerable and those whose parents are critical workers, will be allowed to attend school. Children should be at least 1m (preferably 2m wherever possible) apart in Junior classrooms where social distancing is able to be maintained due 		<ul style="list-style-type: none"> • The door bell must be answered using the telephone system so that nobody enters the building unless it is necessary. • Parents dropping off/collecting children or items will do so in the entrance to reception so that they do not enter the main school building. • The electronic sign in system will not be used during this period. A sign will be placed on screen stating Do Not Use. • Pens and other equipment must not be shared within reception areas - one member of staff will sign in staff and visitors. • All staff must report to reception area on arrival and at the end of their shift to enable reception staff to sign them in and out. • Essential visitors - reception staff to sign them in and out on paper record. Contact details should be collected for track and trace. • Visitors to school are discouraged but it is acknowledged that some visitors are necessary. Visitors are deemed to be any adult who is not on the school payroll (including Governors). • Visitors to the school site are asked to wear a mask until they reach the room where they will be working/meeting. • All staff to ensure if they are expecting a visitor that this has been authorised by the HT/DHT and they must add to the ipad 		

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

ACTIVITY: Coronavirus (COVID-19) Spread and Government Advice				DATE OF ASSESSMENT	
HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	if in place ✗ if not	IF '□' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low	
	<p>to the age of the children. This will reduce the risk of transmission of infection. The maximum number in a classroom must therefore be 12.</p> <ul style="list-style-type: none"> • In reception and infant classrooms there will be a limit of 12 children at any one time in a classroom. • If staffing numbers permit, larger bubbles may be split across more than one room to ensure adherence to social distancing guidelines where possible and reduce the transmission of infection within classrooms. <p>Maintaining a distance between people whilst inside and reducing the amount of time they are in face to face to contact lowers the risk of transmission. It is strong public health advice that staff in secondary schools maintain distance from their pupils, staying at the front of the class, and away from their colleagues where possible. Ideally, adults should maintain 2 metre distance from each other, and from children. We know that this is not always possible, particularly when working with younger children, but if adults can do this when circumstances allow that will help. In particular, they should avoid close face to face contact and minimise time spent within 1 metre of anyone. Similarly, it will not be possible when working with many pupils who have complex needs or who need close contact care. These pupils' educational and care support should be provided as normal.</p> <p>For children old enough, they should also be supported to maintain distance and not touch staff and their peers where possible. This will not be possible for the youngest children and some children with complex needs and it is not feasible in some schools where space does not allow. Schools doing this where they can, and even doing this some of the time, will help.</p>		<p>calendar. Visitors will not be admitted into building unless they are on the calendar.</p> <ul style="list-style-type: none"> • All staff members and visitors to use hand sanitiser upon leaving the reception area. • SD lines to show boundaries in reception area. <p>2. Pupil Entrance/Exit</p> <ul style="list-style-type: none"> • Children in each bubble will arrive and leave by their own allocated door. • Identified classrooms will be class bubbles. <p>3. Lunch</p> <ul style="list-style-type: none"> • Lunches will be staggered and some will be eaten in classrooms and some in the two school halls. • Tables in the two halls will be at each end of the hall so that no bubbles can mix. • Tables and seats will be thoroughly cleaned before the next bubble enters the hall. • After lunch the children will be taken to their allocated play area and supervised by the LSA. There will be a selection of outdoor toys which will be allocated to each group. After use the toys will be cleaned before being put back into the bag. <p>4. On arrival at school Parents dropping off:</p>		

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

ACTIVITY: Coronavirus (COVID-19) Spread and Government Advice				DATE OF ASSESSMENT	
HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	if in place ✗ if not	IF '☐' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low	
	<p>When staff or children cannot maintain distancing, particularly with younger children in primary schools, the risk can also be reduced by keeping pupils in the smaller, class-sized groups described above. Schools should make small adaptations to the classroom to support distancing where possible. That should include seating pupils side by side and facing forwards, rather than face to face or side on, and might include moving unnecessary furniture out of classrooms to make more space.</p> <p>Measures elsewhere Groups should be kept apart, meaning that schools should avoid large gatherings such as assemblies or collective worship with more than one group. When timetabling, groups should be kept apart and movement around the school site kept to a minimum. While passing briefly in the corridor or playground is low risk, schools should avoid creating busy corridors, entrances and exits. Schools should also consider staggered break times and lunch times (and time for cleaning surfaces in the dining hall between groups).</p> <p>Schools should also plan how shared staff spaces are set up and used to help staff to distance from each other. Use of staff rooms should be minimised, although staff must still have a break of a reasonable length during the day.</p> <p>Measures for arriving at and leaving school Travel to school patterns differ greatly between schools. If those patterns allow, schools should consider staggered starts or adjusting start and finish times to keep groups apart as they arrive and leave school. Staggered start and finish times should not reduce the amount of overall teaching time. A staggered start may, for example, include condensing / staggering free periods or break time but retaining the same amount of teaching time, or keeping the length of the day the same but starting and finishing later to avoid rush hour. Schools</p>		<ul style="list-style-type: none"> • Parents and pupils will follow the signs and markings. • Parents and pupils will wait at the markings – at least 2m apart. • Parents/carers are asked to wear a mask when they are on school grounds. • Staff members will be positioned at the entrance gates and exit gates. • Parents to bring pupils to school no earlier than 5 minutes before their allocated time. • Pupils arriving late must be taken to the main office. • Siblings who have a later start time may wait in the hall, sitting on chairs at a 2m distance from each other, until it is their time to go to class. <p>End of day:</p> <ul style="list-style-type: none"> • Parents to collect pupils from their allocated entrance and adhere to SD markings on the yard. • Pupils and parents to leave via the exit signs displayed. • All parents/pupils must adhere to the one way system in place within the school grounds. Parents who refuse to do this will be spoken to by HT. 		

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

ACTIVITY: Coronavirus (COVID-19) Spread and Government Advice				DATE OF ASSESSMENT	
HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	if in place ✗ if not	IF '□' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low	
	<p>should consider how to communicate this to parents and remind them about the process that has been agreed for drop off and collection, including that gathering at the school gates and otherwise coming onto the site without an appointment is not allowed.</p> <p>Please ensure that you contact your Road Safety Advisor regarding any changes to start and finishing times to ensure that appropriate safety measures are updated, e.g. School Crossing Patrols, safer parking, etc.</p> <p>The Department for Education will be supporting schools across the summer on how best to communicate with parents and pupils (and staff) on what to expect on their return and the procedures and expectations in relation to the control measures schools have put in place.</p> <p>Schools should also have a process for removing face coverings when pupils and staff who use them arrive at school and communicate it clearly to them. Pupils must be instructed not to touch the front of their face covering during use or when removing them.</p> <p>They must wash their hands immediately on arrival (as is the case for all pupils), dispose of temporary face coverings in a covered bin or place reusable face coverings in a plastic bag they can take home with them, and then wash their hands again before heading to their classroom. Guidance on safe working in education, childcare and children's social care provides more advice.</p> <p>Other considerations Some pupils with SEND (whether with education, health and care plans or on SEN support) will need specific help and preparation for the changes to routine that this will involve, so teachers and special educational needs coordinators should plan to meet these needs, for example using social stories.</p>		<p>5. Yard & outdoor space</p> <ul style="list-style-type: none"> Yard and all outdoor spaces are allocated to each 'bubble' so there will be no opportunity for bubbles to mix. <p>6. Moving from yard to classroom bubble</p> <ul style="list-style-type: none"> Teacher collects pupils from yard and takes them into their classroom - one class at a time for SD. SD lines marked on yard and in corridors. <p>7. Classroom bubbles</p> <ul style="list-style-type: none"> Each class is regarded as a bubble. Sanitiser station located at entry of each classroom - all pupils and staff must use this (with consent) on their own entry to classroom. All rooms to be cleared of unnecessary equipment and desks in order to operate as a functioning classroom bubble which adheres to SD and other H&S requirements. Children to visit the toilets in small, supervised groups to avoid congestion in corridors. 		

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

	<p>Supply teachers, peripatetic teachers and/or other temporary staff can move between schools. They should ensure they minimise contact and maintain as much distance as possible from other staff. Specialists, therapists, clinicians and other support staff for pupils with SEND should provide interventions as usual. Schools should consider how to manage other visitors to the site, such as contractors, and ensure that the risks associated with managing contractors, visitors, catering staff and deliveries, as well as cleaning staff on site who may be working throughout the school and across different groups, are addressed. This will require close cooperation between both schools and the other relevant employers. Schools should have discussions with key contractors about the school's control measures and ways of working as part of planning for the autumn term. Schools should ensure site guidance on physical distancing and hygiene is explained to visitors on or before arrival. Where visits can happen outside of school hours, they should. A record should be kept of all visitors.</p> <p>Visitors to the school should be restricted to only absolute necessary visits.</p> <p>School can request parents to wear face covering when entering site during drop off and pick up times, but this is not mandatory.</p> <p>In primary schools, we recommend that face coverings should be worn by staff and adult visitors in situations where social distancing between adults is not possible (for example, when moving around in corridors and communal areas). Children in primary school do not need to wear a face covering. We are taking this additional precautionary measure for a limited time during this period of high coronavirus (COVID-19) prevalence in the community. These measures will be in place until Easter. As with all measures, we will keep it under review and update guidance at that point.</p>		<p>8. Equipment</p> <ul style="list-style-type: none"> • Pupils will be given a see through zip bag with their name on holding their own stationery. • No stationery will be shared. • All items and bag to be cleaned by pupil at end of each day. • Tables to be wiped mid-morning and after lunch. • All classes will be given a box of outdoor and sporting equipment for their use. • All equipment and box will be cleaned by pupils at the end of each day. • All pupils' work to be stored in A3 zipped plastic wallet. • IPADS will be cleaned after use using special wipes provided. • IPADS which are taken home by children using 1:1 scheme will be cleaned as soon as they come into school and before they go home. • Any text books will not be shared and will be kept by individual children. When they are finished with, they should be stored for 72 hours before using again. • Any reading books should be stored for 72 hours before going back into circulation. • Where possible pages from books will be copied onto IPADS, the IWB or photocopied to avoid using text books wherever possible. 		

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. 	<p>Where a child routinely attends more than one setting on a part time basis, for example because they are dual registered at a mainstream school and an alternative provision setting or special school, schools should work through the system of controls collaboratively, enabling them to address any risks identified and allowing them to jointly deliver a broad and balanced curriculum for the child.</p> <p>Equipment and resources are integral to education in schools. During the summer term, their use was minimised, many were moved out of classrooms, and there was significant extra cleaning. That position has now changed for the autumn term, because prevalence of coronavirus (COVID-19) has decreased and because they are so important for the delivery of education. For individual and very frequently used equipment, such as pencils and pens, it is recommended that staff and pupils have their own items that are not shared. Classroom based resources, such as books and games, can be used and shared within the bubble; these should be cleaned regularly, along with all frequently touched surfaces. Resources that are shared between classes or bubbles, such as sports, art and science equipment should be cleaned frequently and meticulously and always between bubbles, or rotated to allow them to be left unused and out of reach for a period of 48 hours (72 hours for plastics) between use by different bubbles. Outdoor playground equipment should be more frequently cleaned.</p> <p>Pupils must sanitise their hands before and after playing on outdoor equipment. To help mitigate the spread on wood play equipment pupils must sanitise their hands before and after playing on outdoor equipment. Further details on cleaning the equipment will be provided by STC Public Health.</p>		<p>9. Cleaning Cleaning of toilets after use:</p> <ul style="list-style-type: none"> Toilets will be cleaned after morning playtime and at the end of lunchtime by SS. They will have their usual thorough clean at the end of the day. Sick bay / first aid area -staff toilet will be used by pupils needing to use it whilst in the sick bay/first aid area. <p>Please note information throughout this document regarding cleaning of specific areas.</p> <p>10. Non classroom staff locations</p> <ul style="list-style-type: none"> HT – own office DHT – own office VG – reception office RG/CW – Inclusion/Attendance office RS – Entrance to old library room <ul style="list-style-type: none"> All non class room staff members will be expected to clean their areas after use - including telephone, keyboard and chair. These areas will be cleaned by the cleaner but this is an additional cleaning action. All deliveries to school - items to be left in front entrance and SS to distribute asap - 		

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. 	<p>being coughed on, a face to face conversation, or unprotected physical contact (skin-to-skin)</p> <ul style="list-style-type: none"> • proximity contacts - extended close contact (within 1 to 2 metres for more than 15 minutes) with an infected individual • travelling in a small vehicle, like a car, with an infected person <p>The health protection team will provide definitive advice on who must be sent home. To support them in doing so, we recommend schools keep a record of pupils and staff in each group, and any close contact that takes places between children and staff in different groups (see section 5 of system of control for more on grouping pupils). This should be a proportionate recording process. Schools do not need to ask pupils to record everyone they have spent time with each day or ask staff to keep definitive records in a way that is overly burdensome.</p> <p>A template letter will be provided to schools, on the advice of the health protection team, to send to parents and staff if needed. Schools must not share the names or details of people with coronavirus (COVID-19) unless essential to protect others.</p> <p>Household members of those contacts who are sent home do not need to self-isolate themselves unless the child, young person or staff member who is self-isolating subsequently develops symptoms. If someone in a class or group that has been asked to self-isolate develops symptoms themselves within their 14-day isolation period they should follow ‘stay at home: guidance for households with possible or confirmed coronavirus (COVID-19) infection’. They should get a test, and:</p> <ul style="list-style-type: none"> • if the test delivers a negative result, they must remain in isolation for the remainder of the 14-day isolation period. This is because they could still develop the coronavirus (COVID-19) within the remaining days. 				

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	if in place ✗ if not	IF '☐' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low	
Failure to contain any outbreak by following local health protection team advice	<p>If schools have two or more confirmed cases within 14 days, or an overall rise in sickness absence where coronavirus (COVID-19) is suspected, they may have an outbreak, and must continue to work with their local health protection team who will be able to advise if additional action is required.</p> <p>In some cases, health protection teams may recommend that a larger number of other pupils self-isolate at home as a precautionary measure – perhaps the whole site or year group. If schools are implementing controls from this list, addressing the risks they have identified and therefore reducing transmission risks, whole school closure based on cases within the school will not generally be necessary, and should not be considered except on the advice of health protection teams.</p> <p>In consultation with the local Director of Public Health, where an outbreak in a school is confirmed, a mobile testing unit may be dispatched to test others who may have been in contact with the person who has tested positive. Testing will first focus on the person's class, followed by their year group, then the whole school if necessary, in line with routine public health outbreak control practice.</p>				
Risk of coronavirus infection spreading due to use of transport	<p>Adjust transport arrangements where necessary including:</p> <ul style="list-style-type: none"> • encourage parents and children and young people to walk or cycle to their education setting where possible • make sure schools, parents and young people follow the <u>Coronavirus (COVID-19): safer travel guidance for passengers</u> when planning their travel • ensure that transport arrangements cater for any changes to start and finish times 				

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

	<ul style="list-style-type: none"> communicating revised travel plans clearly to contractors, local authorities and parents where appropriate (for instance, to agree pick-up and drop-off times) <p>Dedicated school transport, including statutory provision Pupils on dedicated school services do not mix with the general public on those journeys and tend to be consistent. This means that the advice for passengers on public transport to adopt a social distance of two metres from people outside their household or support bubble, or a 'one metre plus' approach where this is not possible, will not apply from the autumn term on dedicated transport. The approach to dedicated transport should align as far as possible with the principles underpinning the system of controls set out in this document and with the approach being adopted for your school. It is important to consider:</p> <ul style="list-style-type: none"> how pupils are grouped together on transport, where possible this should reflect the bubbles that are adopted within school use of hand sanitiser upon boarding and/or disembarking additional cleaning of vehicles organised queuing and boarding where possible distancing within vehicles wherever possible the use of face coverings for children over the age of 11, where appropriate, for example, if they are likely to come into very close contact with people outside of their group or who they do not normally meet <p>The government is currently evaluating this position and will set out next steps shortly.</p> <p>Wider public transport STC are currently working with transport providers and schools to plan safe, consistent transport for all staff and pupils.</p> <p>Families using public transport should refer to the safer travel guidance for passengers.</p>				

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	if in place ✗ if not	IF '□' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low	
	<p>During national lockdown journeys should only be made for education or childcare, for work purposes, to exercise outdoors or visit an outdoor public place, for visiting venues that are open, for a medical reason, such as taking someone to hospital</p> <p>It is recommended that any educational visits should not take place during a national lockdown.</p> <p>If you live in a Tier 4 area, you must not leave your home unless you have a reasonable excuse (for example, for work or education purposes). If you need to travel you should stay local – meaning avoiding travelling outside of your village, town or the part of a city where you live – and look to reduce the number of journeys you make overall.” https://www.gov.uk/guidance/tier-4-stay-at-home#travel . There has been no specific guidance regarding Educational Visits, but interpreting the regulations and guidance it is evident that we can travel to education and should look to reduce the numbers of journeys we make. Therefore, from Monday 4th January 2021, Educational Visits should not go ahead as these are not categorised as 'essential travel'.</p>				
Risk of coronavirus infection spreading to shielded and clinically vulnerable adults	<p>Where schools apply the full measures in the Government guidance and the Building and School RAs, the risks to all staff will be mitigated significantly, including those who are extremely clinically vulnerable and clinically vulnerable. We expect this will allow most staff to return to the workplace, although we advise those in the most at risk categories to take particular care while community transmission rates continue to fall.</p> <p>Advice for those who are clinically-vulnerable, including pregnant women, is available.</p>				

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	if in place ✗ if not	IF 'X' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low	
	<p>Those individuals who are clinically extremely vulnerable are advised to work from home and not to go into work until 31st March 2021. Individuals in this group will have been identified through a letter from the NHS or from their GP, and may have been advised to shield in the past. Staff should talk to their employers about how they will be supported, including to work from home where possible, during the period of national restrictions.</p> <p>All other staff should continue to attend work, including those living in a household with someone who is clinically extremely vulnerable.</p> <p>Individuals who were considered to be clinically extremely vulnerable and received a letter advising them to shield are now advised that they can return to work from 1 August as long as they maintain social distancing. Advice for those who are extremely clinically vulnerable can be found in the guidance on shielding and protecting people who are clinically extremely vulnerable from COVID-19.</p> <p>School leaders should be flexible in how those members of staff are deployed to enable them to work remotely where possible or in roles in school where it is possible to maintain social distancing. Further details will be sent to all schools and available on the Intranet.</p> <p>Staff and children who are clinically vulnerable or have underlying health conditions but are not clinically extremely vulnerable, may continue to attend school in line with current guidance.</p> <p>People who live with those who are clinically extremely vulnerable or clinically vulnerable can attend the workplace.</p>				

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

ACTIVITY: Coronavirus (COVID-19) Spread and Government Advice				DATE OF ASSESSMENT	
HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	if in place ✗ if not	IF '□' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low	
	<p>Clinically extremely vulnerable people should not go to the workplace if they live or work in areas where shielding advice is active. Currently this applies to Tier 4 areas only. Shielding advice is currently in place in Tier 4, so all children still deemed clinically extremely vulnerable are advised not to attend school. Children and young people whose parents or carers are clinically extremely vulnerable can continue to go to school." https://www.gov.uk/government/publications/guidance-on-shielding-and-protecting-extremely-vulnerable-persons-from-covid-19/guidance-on-shielding-and-protecting-extremely-vulnerable-persons-from-covid-19</p>				
<p>Risk of coronavirus infection spreading to shielded and clinically vulnerable persons via pupil or staff attending school</p>	<p>More evidence has emerged that shows there is a very low risk of children becoming very unwell from coronavirus (COVID-19), even for children with existing health conditions. Most children originally identified as clinically extremely vulnerable no longer need to follow original shielding advice. Parents should be advised to speak to their child's GP or specialist clinician if they have not already done so, to understand whether their child should still be classed as clinically extremely vulnerable.</p> <p>Those children whose doctors have confirmed they are still clinically extremely vulnerable are advised not to attend education whilst the national restrictions are in place. Schools will need to make appropriate arrangements to enable them to continue their education at home.</p> <p>Children who live with someone who is clinically extremely vulnerable, but who are not clinically extremely vulnerable themselves, should still attend education.</p>				

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	if in place ✗ if not	IF '□' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low	
	<p>Parents of clinically extremely vulnerable children will be receiving a letter shortly confirming this advice.</p> <p>Pupils who are shielding or self-isolating We now know much more about coronavirus (COVID-19) and so in future there will be far fewer children and young people advised to shield whenever community transmission rates are high. Therefore, the majority of pupils will be able to return to school. You should note however that:</p> <ul style="list-style-type: none"> • a small number of pupils will still be unable to attend in line with public health advice because they are self-isolating and have had symptoms or a positive test result themselves; or because they are a close contact of someone who has coronavirus (COVID-19) • shielding advice for all adults and children will pause on 1 August, subject to a continued decline in the rates of community transmission of coronavirus (COVID-19). This means that even the small number of pupils who will remain on the shielded patient list can also return to school, as can those who have family members who are shielding. Read the current advice on shielding • if rates of the disease rise in local areas, children (or family members) from that area, and that area only, will be advised to shield during the period where rates remain high and therefore they may be temporarily absent (see below). • some pupils no longer required to shield but who generally remain under the care of a specialist health professional may need to discuss their care with their health professional before returning to school (usually at their next planned clinical appointment). You can find more advice from the Royal College of Paediatrics and Child Health at COVID-19 - 'shielding' guidance for children and young people. 				

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

	<p>Where a pupil is unable to attend school because they are complying with clinical and/or public health advice, we expect schools to be able to immediately offer them access to remote education. Schools should monitor engagement with this activity (as set out in the section below).</p> <p>Where children are not able to attend school as parents are following clinical and/or public health advice, absence will not be penalised.</p>				
Conducting Staff Lateral Flow (Rapid Flow) Tests	<p>Primary schools should follow the Rapid asymptomatic coronavirus (COVID-19) testing for staff in primary schools, school-based nurseries and maintained nursery schools guidance.</p> <p>It remains imperative that the system of controls continues to be rigorously applied to enable the safest possible environment. The testing programme is an important addition to supporting leaders to maintain the continuity of education through the pandemic.</p> <p>All primary schools, school-based nurseries and maintained nursery schools will start to receive deliveries of home testing kits to offer to all their staff from 18 January.</p> <p>Primary, school-based nursery and maintained nursery staff will be supplied with lateral flow device (LFD) test kits to self-swab. Staff will be asked to take their test kits home and carry out the test twice a week. The LFD test will give a result in around 30 minutes. Staff must report their result to NHS Test and Trace as soon as the test is completed either online or by telephone as per the instructions in the home test kit. Staff should also share their result with their school or nursery to help with contact tracing.</p>				

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

	<p>Testing is not mandatory for staff and staff do not need to provide proof of a negative test result to attend school or nursery in person, although participation in testing is strongly encouraged.</p> <p>Staff taking part in the testing must complete the consent form.</p> <p>Privacy notice to be shared with all staff.</p> <p>Staff to following the instructions and storage guidance provided with the testing kit.</p> <p>Staff to carefully dispose of the test device and equipment in their household rubbish. This maybe subject to change based on any future waste disposal guidance.</p> <p>Staff with a positive LFD test result will need to self-isolate in line with the stay-at-home guidance. They will also need to arrange a polymerase chain reaction (PCR) test to confirm the result. Staff with a negative LFD test result can continue to attend school or nursery and use protective measures. https://www.gov.uk/get-coronavirus-test</p> <p>The asymptomatic testing programme does not replace the current testing policy for those with symptoms. Anyone with symptoms (even if they recently had a negative LFD test result), should still self-isolate immediately according to government guidelines.</p> <p>Those with symptoms are also expected to order a test online or visit a test site to take a polymerase chain reaction (PCR) test to check if they have the virus.</p>				

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances.
