

“A medical journey - A world where Science meets Empathy”

ROUTES INTO MEDICINE

Inspiring future Doctors - Why Science A-levels open doors

WHY CHOOSE MEDICINE?

- Make a real difference in people's lives everyday.
- One of the most respected and rewarding careers with lifelong learning.
- Wide range of specialisms – from surgery to psychiatry.
- Excellent job security and international opportunities.

PATHWAYS TO MEDICINE

- Undergraduate degree
- Graduate entry Medicine
- Transfer to Medicine from other courses
- Study abroad
- Foundation Medicine

WHAT YOU NEED TO STUDY MEDICINE

- A-levels (or equivalent) - BIOLOGY & CHEMISTRY are essential
- A third A-level subject - Physics/Maths are preferred
- Strong GCSE results in English, Maths & Science (COMBINED or TRIPLE IS FINE)
- Essential skills: Communication, teamwork, resilience, empathy

THE TYPICAL PATHWAY

1. Sixth form - take Science A-levels and gain experience
2. University - apply for Medicine (5 year course)
3. Foundation post graduation programme - 2 years as a junior doctor
4. Specialist training - chose your medical field

Building a strong UCAS application

- Work experience (clinical) - GP surgeries, hospitals, pharmacy, dental clinics, care homes
- Voluntary work (long-term commitment) - care homes/disability centres, charities, community outreach work, primary schools
- Training for entrance exams - UCAT and/or BMAT
- Interviews - practice communication and problem solving skills.
- 6th form at EGS gives dedicated time for progression and work experience into the timetable/annual calendar

HOW OUR 6TH FORM AT EGS CAN HELP YOU

- A-level options tailored for Medicine (STEM subjects)
- Expert experienced Science teachers WHO KNOW YOU!
- Support and personal guidance with UCAS applications
- Links with local hospital for work experience
- Workshops and external advisors
