You could still be working in 2079!

Comparison:

People working today could have chosen their 'options' in 1965.

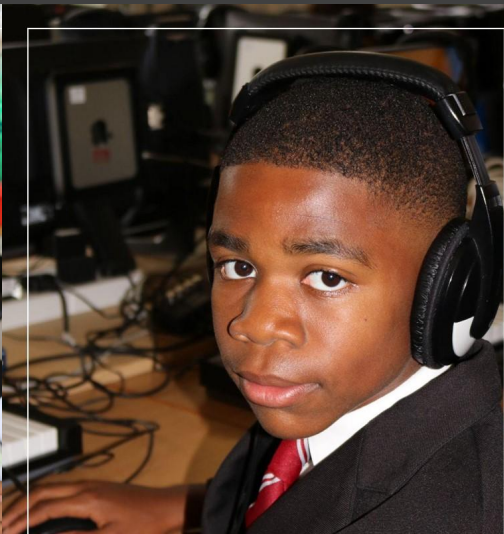

The world has changed A LOT since 1965 and change seems to be happening at an ever faster rate.

PLANNING AHEAD

At KS3 you will have studied over 15 different subjects as part of the school's '*broad and balanced curriculum*'. We believe this is key to helping you develop as a well rounded, successful individual.

We still believe this is important for Key Stage 4, but you must narrow that range down to 9 GCSEs.

This presentation will guide you through the process and give you advice to make the right choices because choosing the right GCSEs will help to keep the right doors open for you.

THE SMALL PRINT

The school reserves the right to guide students towards certain subjects and routes which we feel better suit them.

Please be aware that we cannot give a guarantee of every student getting the option choices they have chosen.

Each option needs viable numbers but also has a maximum capacity. What we can guarantee is that we will do our best to meet all requests.

Once choices are made and a course has been embarked upon there is very little flexibility in changing course.
