## A new BSL vocabulary app for iPhone and iPad

A group of young deaf people in South Tyneside have created a charitable app to support friends & family in learning British Sign Language (BSL).

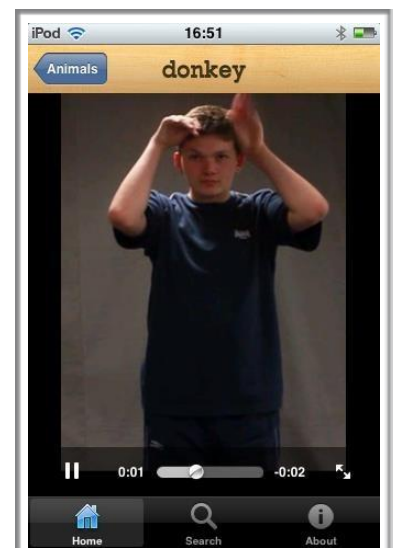

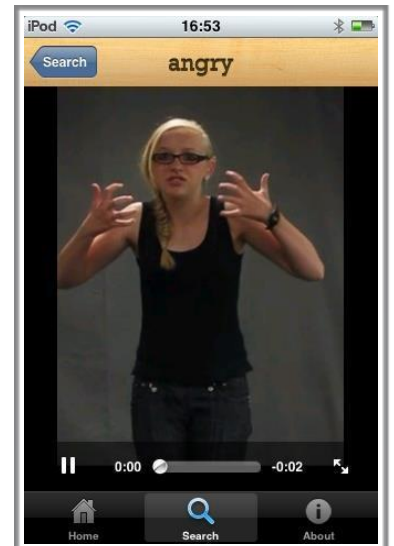

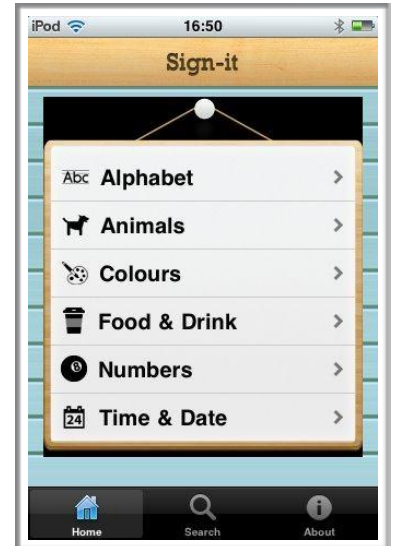

The project has taken over 2 years to complete and is now available to download in the App Store!

Support was given by the local sensory team - South Tyneside Hearing Impaired Service and all profits will be used to purchase equipment and technology for deaf children in the area.

The signs chosen were discussed and decided upon with the local Deaf Club and level 3 students in the area, they support the vocabulary for Signature's level 1 BSL qualification.

We noticed a need for further resources that would introduce BSL to those parents not yet comfortable in attending formal courses, as well as a resource to use at home for those who were already attending level 1 classes.

Now available in the App Store UK. For comments or further information please email [signitapp@southtyneside.gov.uk](mailto:signitapp@southtyneside.gov.uk)

*Thanks to Megan, Adam, Dominic, Amber, David and Bridie for all of their hard work creating the video clips!*
