Dear Supporter

I am writing to thank you most warmly for your kind donation of £305.16 raised at your recent non-uniform day, in support of the British Heart Foundation (BHF), the nation's heart charity. Your continued support is playing a vital role in our fight against heart disease.

At the BHF we rely entirely on donations large and small from people like you, whose support enables us to carry out our life-saving work. By donating to us you are doing more than just giving to charity, you are saving lives. That's because our pioneering research is constantly exploring new ways to prevent heart disease and to provide treatment and care for people with failing hearts.

Donations to the BHF have already helped us to identify likely causes of heart disease, and supporters just like you have funded innovative solutions such as pacemakers, replacement heart valves and the recent advances in pre natal care, detecting heart problems in unborn babies.

For example, Claire was diagnosed with a rare heart condition as a young child. The major surgery she has undergone gave her a chance at life that she's now grabbing with both hands. *'It's really important that young people are aware of heart conditions...I can show people that they can live a normal life and it doesn't have to be anything scary'*

Heart disease is the nation's biggest killer, shattering thousands of lives all across the UK. Every penny we receive brings us closer to realising our vision of beating heart disease, and with your support the next big breakthrough could be just around the corner.

Yours sincerely

Amanda Pullen
Customer Service Manager
