

## **Female Genital Mutilation (FGM)**

Female Genital Mutilation (FGM) is when parts of the female genital area are cut or harmed in a way that can cause serious long-term damage. FGM is illegal in the UK and is a form of child abuse. It can have harmful effects for those who experience it.

At All Saints, if we suspect that a child or adult has been affected by FGM, we are required by law to report it to the police to protect them.

If you have any worries or concerns, please contact one of our designated safeguarding officers who can provide support and help.

If you have any concerns you would like to discuss, please contact one of our designated safeguarding officers.
