At Astwood Bank Primary School we believe that Art and Design is a vital part of the education of all children. The child's use and understanding of the visual language of art needs to be developed by effective teaching and by a considered sequence of experiences. The school's aim is to provide an art curriculum which will enable each child to reach their full potential in learning in art, through investigating and making, through research and the development of skills and through their evaluation of their own art and that made by others. At Astwood Bank Primary School we believe Art and Design activity enriches children's learning and enables them to communicate their thoughts, ideas and observations in a practical and expressive way. In talking about art and evaluating their own and others' work, children are encouraged to develop their visual language, ideas and feelings. Through experience of a variety of materials, tools and techniques children have the opportunity to record creatively the world around them.

### **Purpose of study and Aims:**

Our curriculum intent includes planned opportunities to ensure all children:

- ✓ Produce creative work, exploring their ideas and recording their experiences.
- ✓ Ensure a love and desire to learn art and design.
- ✓ Become resilient, positive, aspirational learners.
- ✓ Develop 'pupil voice' and children as leaders in their learning.

- ✓ All pupils will be given equal access to the experience of the art regardless of the gender, race or disability.

### **Art and Design Impact**

Art and Design learning is loved by teachers and pupils across school. Teachers have high expectations and more quality evidence can be presented in a variety of ways. All children use technical vocabulary accurately and pupils are expected to know, apply and understand the matters, skills and processes specified. Children improve their enquiry skills and inquisitiveness about the world around them, and their impact through art and design on the world. Children will become more confident in analysing their work and giving their opinion on their own and other works of art. Children show competences in improving their resilience and perseverance by continually evaluating and improving their work. All children in school can speak confidently about their art and design work and their skills.

### **Art and Design Curriculum Implementation:**

The Art and Design curriculum follows the National Curriculum objectives for each year group, long term planning grids ensure all objectives are covered over the course of the year. In some year groups, a topic might be covered more than once to deepen knowledge and skills. Some topics are also covered within the different years, using the art and design objective sheet staff can see what has been taught before and what will be taught after. In EYFS art and design is taught through their topic work throughout the half term. In KS1 and KS2 Art and Design is taught each half term as part of a focussed lesson on Art or linked to the class topic.

### **Early Years – Early Learning Goals**

During Early Years pupils will have the opportunity to develop creativity and imagination through activities designed to explore colour, texture, form, shape and space in two and three dimensions. They begin to explore and investigate the visual tactile and sensory qualities of materials and processes. They begin to use colour and shape. They begin to investigate and explore the use of pattern and texture to represent feelings and ideas.

### **Key stage 1 Pupils should be taught:**

- to use a range of materials creatively to design and make products
- to use drawing, painting and sculpture to develop and share their ideas, experiences and imagination
- to develop a wide range of art and design techniques in using colour, pattern, texture, line, shape, form and space
- to learn about the work of a range of artists, craft makers and designers, describing the differences and similarities between different practices and disciplines, and making links to their own work.
- to start to use a sketch book to record their observations, and develop techniques and skills.

## Key stage 2

Pupils should be taught to develop their techniques, including their control and their use of materials, with creativity, experimentation and an increasing awareness of different kinds of art, craft and design. Pupils should be taught:

- to create sketch books to record their observations and use them to review and revisit ideas to improve their mastery of art and design techniques, including drawing, painting and sculpture with a range of materials [for example, pencil, charcoal, paint, clay]
- To learn about great artists, architects and designers in history.

Curriculum objectives are split by the Key Stages and planning is linked to themes. There are clear objectives for each year group for each half term.

## Equal Opportunities

All children regardless of cultural background, gender or ability will have the same access to the Art and Design curriculum and will be given the opportunity to join in with all activities. Art and Design is taught in a cross-curricular way and teachers provide work that is stimulating, challenging and inclusive for all children.

## Resources

Art and Design resources are organised centrally in a storeroom. They are reviewed, maintained and updated regularly by the subject lead. There are a range of different resources to support with all art and design learning objectives. There are a range of books in our library to support all topic areas.

## Health and Safety

This policy needs to be read alongside our **Health and Safety Policy** and the **Educational Visits Policy**.

## Assessment

Assessment for learning is a powerful means of helping each teacher to tailor their teaching to get the best progress for each child. Each unit of work starts with an assessment of prior knowledge and what skills they will be learning. It ends with an assessment of what they have learned, and the children will be judged on whether they are meeting expected levels of development, or if they are exceeding expected levels, or not yet reaching expected levels ('emerging'). The children also have opportunities to self and peer assess against the success criteria.

## Monitoring

The Art and Design subject leader is responsible for:

- Monitoring the standard of work and the quality of teaching in Art and Design.
- Reviewing and updating resources.
- Being informed about current developments in the subject.
- Developing assessment to ensure progression and continuity.

**Expressive Arts and Design (Exploring and Using Media and Materials)**

Children safely use and explore a variety of materials, tools and techniques, experimenting with colour, design, texture, form and function.

**Expressive Arts and Design (Being Imaginative)**

Children use what they have learnt about media and materials in original ways, thinking about uses and purposes. They represent their own ideas, thoughts and feelings through design and technology, art, music, dance, role play and stories.

**Level Expected at the End of EYFS**
